

ZIEHER

2023

PROFESSIONAL

ZIEHER

Dear customers and friends,

in the past years, pandemics and war have brought
some changes into our daily life.

We live more conscious, sustainable and closer to nature.

Also, for this reason, we have decided to print our new catalogue
only in a reasonably small edition and to make it available in large part digital
and therefore more sustainable.

This plays also a decisive role regarding our novelties. Bring nature to your buffet
with our new buffet displays “Stomp!” and “Sagano”.
The “Sagano” buffet displays for instance are made of bamboo,
an extremely fast-growing raw material.

Our new handmade ceramic series “Bosque” enchants by its play of colours
in green-, blue- and grey shades and impresses
by its charming and natural vibrancy.

I hope you enjoy browsing while discovering these and further novelties.

Best regards,

Dominik Zieher

All information about Zieher and the complete product range is available at WWW.ZIEHER.COM.

7 **Buffet**
Buffet displays “Stomp!” – “Sagano” – “Glow” – “Textura” – “Somnia” – “Crossline”
Buffet systems “Skyline” – “Squareline” – “Curve”
The Zieher-System: “StiXXX” – “Konkret!” – “Neo” – “Classy” – “Luxor” – “Solid” – “Antique” –
“Lightning Buffet” – “V12” – cooling element “Chiller-Base”
Buffet platters made of slate, laminated plastic and glass, buffet steps made of glass
Buffet bowls made of pewter, brass, shell, stainless steel and glass
Buffet stand “Mikado” – “Stablo” and “Falcon”
Buffet etageres made of stainless steel, “Fingerfood-Tree”
Serving trays and buffet systems made of walnut: “Mercato” – “Solid”

131 **Catering**
“Bento Box”, melamine trays and accessories
Serving trays and cutlery boxes made of walnut and melamine
Tray system “Modul”: walnut – melamine – glass and china inserts

147 **China, glass and more**
Main series and small series made of china, ceramics and glass, e. g. “Bosque” – “Gelo” – “Bolla”
Porcelain plates, bowls and dishes
Glass plates, platters, bowls and dishes
Pewter napkin rings, charger plates, glass cloches

191 **Wine glasses, decanter, bar and more**
Wine glass series VISION and “Tesoro”, an aid to wine enjoyment
Wine decanter “Doppio” – “Star” – “Star”-mini – “Eddy” – “Eddy”-mini – “Pebble”
Base ring with LED for decanter “Star” and “Eddy”
Drying racks “DryPod” and “Stablo”
Champagne cooler “Stablo” and “Mikado”
“The Bar Collection”

222 **Miniatures**
Miniatures made of pewter and borosilicate glass
Anti-slip coasters made of silicone
Miniatures made of glass, china, stainless steel and melamine
Skewers and natural stone platters

245 **Cruet stands, trays, etageres and more**
“Bento Box” made of melamine, trays made of melamine and wood
Chocolate/truffles boxes, suitable inserts made of solid surface material
Trays and serving platters made of walnut, displays and trays made of brass
Etageres and racks made of stainless steel, jam trays and food displays
Cruets and trays with suitable inserts, bread boxes/baskets
Wind lights and accessories

288 **Room service, hotel room**
Roomservice trays and accessories
Storage/presentation boxes, cutlery box “Solid”
Shelves and etageres, display “DryPod”

Excellence since 1986

In the year 2006 we designed the first items ourselves and placed them on the market.

Since that time developing and implementing exclusive design objects has been our calling. On this page we show a couple of the most important creations of the past years.

Design, innovation and quality are our mission!

"Sagano" & "Stomp!" – Unique like nature!

The desire for individuality and handmade, unique pieces is perceptible in all sections of the hotel business. Besides distinctive elements in architecture and interior, guests should also experience uniqueness at the food presentation on the buffet.

"Stomp!" and "Sagano" (page 10) are taking up this trend and playfully connect it with the tamed power of nature.

Pieces of solid oak wood, spit by an axe, carefully oiled and individually arranged form the basis of the "Stomp!" buffet displays. These ethnic elements of nature are cast in anthracite, but nevertheless slightly translucent resin and thus durably fixed in their arrangement. The silk matt finish of the dark coloured resin forms a harmonic contrast to the oiled oak wood. The combination of "Stomp!" with items made from solid brass results in a solemn, almost mystical atmosphere.

More information can be found on the following pages.

“Sagano“ & “Stomp!“ – Unique like nature!

In contrary to “Stomp!“ (page 8), “Sagano“ fascinates by its playful airiness and filigree vibrancy. Feathery bamboo poles in different diameters are composed in white resin. Here, the visible rings on the top of the displays create diversified, almost graphical effects.

Both lines have the same concept, but the final appearance is quite opposite and yet easy to combine. Each display is one of a kind and absolutely unique.

The resin used in both series is food-safe and was refined with a silk-matt finish and finally oiled. So in case of wear in daily use, the surfaces can easily be refreshed.

To protect these surfaces, but also to arrange food directly on the displays, optionally available glass platters can be placed on top if needed and can also be replaced by new ones quickly.

"Glow"

"Glow" – reframing the buffet!

Filigree displays and frames with integrated lighting form the basis of the "Glow" system.

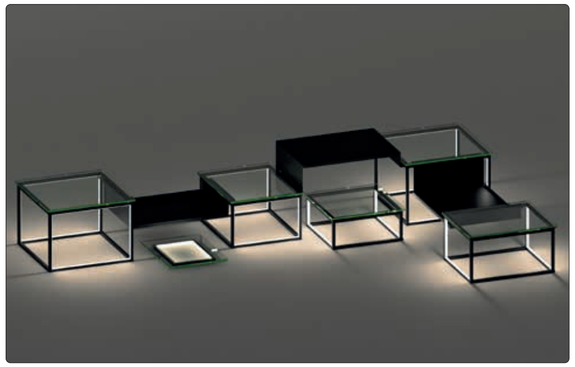

The matt black coating of these slim but still extremely sturdy lighting objects remains discreetly in the background and leaves the presentation of dishes to the warm and glare-free light.

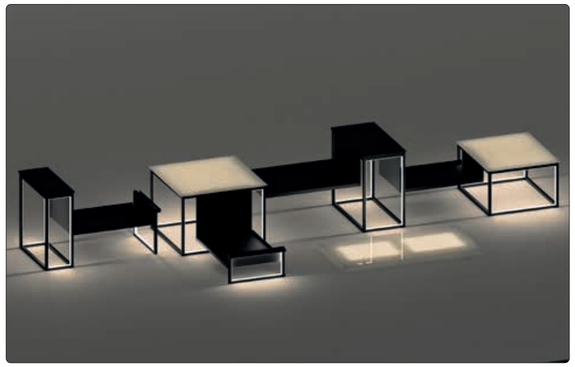

"Glow" is a flexible system that creates unmatched buffet stagings. The filigree construction not only allows food and beverages to be presented on the displays, their interiour space also creates enough space to effectively present delicacies in the right light.

All elements can be used lying or upright and create presentation levels at different heights. This is the basis for varied and appealing buffet arrangements.

Two connecting boards made of bent sheet metal can be attached as desired and thus enable the flexible construction of several elements – even across corners. Matching buffet platters made of glass or laminated plastic, as well as trays made of melamine, complete the system.

Zieher buffet systems have been inspiring with innovative lighting concepts for many years. In "Glow", this is now firmly integrated for the first time. The resulting subtle look of these lighting objects creates completely new facets of atmospheric buffet ambiences.

Components of the system:

- The illuminated cuboids offer, due to the two integrated connection sockets, the possibility of operating up to three elements on one power supply.
- Illuminated frames can be placed horizontally and thus enable the effective lighting of translucent buffet platters. When set up, they fit into the height grid of the buffet cuboids and thus function as a space-saving support for attached connecting boards.
- The connecting boards are made of powder-coated sheet metal and allow a two-sided use. They can simply be hung between the cuboids and frames, creating additional presentation levels and areas.
- Precisely fitting glass platters of various types and platters made of black laminated plastic make it possible to quickly and easily close the top of the illuminated cuboids. Various melamine trays from the range can also be used on some of the cubes. In the lying position, there is a large selection of suitable glass platters from the Zieher range available (50 x 50cm / 50 x 42cm / 42 x 42cm). These buffet platters are available on pages 56 to 59. If the cuboids are positioned upright, they can be covered with laminated plastic platters.
- Rubberised magnetic buffers ensure the non-slip and noiseless support of all platters and trays. These are available as accessories and can be placed anywhere on the displays and frames. Furthermore, they create the necessary distance in order to place glass or laminated plastic platters in spite of the attached connecting boards.

8400.16 + 8010.01

8400.24 + 8010.02

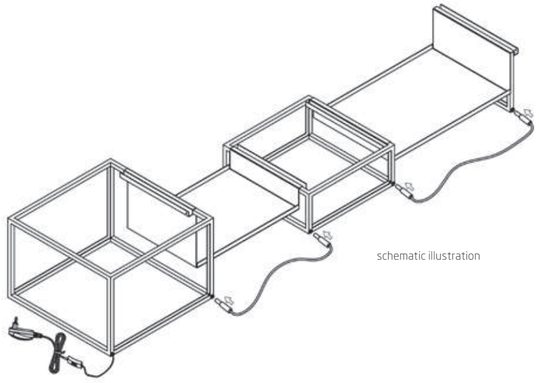

Accessories LED lighting:

- The power supplies are available with EU, US and UK plugs. The power of the supplies is sufficient to connect up to three cuboids or frames. Since each cuboid has two connection options, they can be strung together without any problems. As they only have one connection option, the two frames form the end of the chain. The energy-efficient LED lighting in warm white colour is operated with harmless 24 volts.
- Connecting cables with angled plugs are available in two lengths and help to keep the number of cables required as low as possible in numerous setups.
- Shapely and reusable cable holders made of durable silicone help to lay and fix power- and connecting cables inconspicuously or to bundle several cables.

Video "Textura"

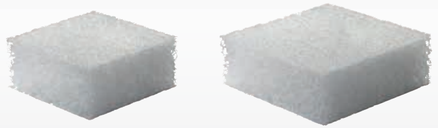

→ Cooling elements "Chiller Base" | p. 50

"Textura" – indestructible, innovative, exclusive!

The exclusive cuboids consist of thin polyethylene filaments, which are convoluted intricately and fused together, awarding them a flexible and very stable texture. The true potential of this innovative material is disclosed in connection with light. The light-conducting properties of the filigree filaments manifest effectively when using the rechargeable Zieher LED-light (page 46/47), which fits exactly into the cut-outs on the bottom side of the displays. Buffet platters and trays are reliably kept in position due to the non-slip features of this material. The displays are indestructible and very light, washable and dirt-repellent. The countless interspaces create a light-flooded meshwork, which dries very quickly and is therefore resistant to humidity and mold.
Polyethylene can repeatedly be 100% recycled without losing its outstanding characteristics. It is physiologically non-hazarous, odorless, tasteless and resistant to a variety of acids, oils and grease.

Precisely fitting recess for LED-lights | p. 46/47

buffet display "Textura"

item	l x w x h in cm
8232.24	approx. 24x24x10.5
8232.30	approx. 30x30x10.5

Please note:

In order to grant a harmonic all-over illumination while using stacked cuboids, it is recommended to use one LED-light per item. For usage of bigger buffet platters, we suggest to employ the elements with 30 cm edge length. Due to the flexible material, we recommend stacking a maximum of two cubes on top of each other, when the system is equipped with heavy platters or bowls.

"Somnia"

The buffet displays and luminaires of the "Somnia" series are assembled from organically shaped, filigree rods which are made of solid brass in traditional sand casting. These single components, reminiscent of brittle branches, are afterwards melded in complex handicraft to impressive unique pieces. Optionally available black rubber caps can be fixed to improve the slip resistance and to protect the sensitive surface of furniture.

The wind light is equipped with a solid base plate with an elevated rim. This base avoids a leakage of wax and protects the table surface from heat. Furthermore it forms the frame for a removable cylinder made of heat resistant glass, which by way of its satined surface, intensifies the mood of light and protects the flame from wind at the same time.

Filigree understatement!

The filigree displays of the "Crossline" series feature an enormous stability due to their cleverly elaborated statics. These elements, which have been deliberately designed to have a plain and restrained appearance, unobtrusively blend into every ambience.

The rectangular base has been constructed especially for a presentation bowl made of dark grey glass, which among other things impresses by its length of approx. 130 cm. Hinged beams at the upper side of the trestle can be adjusted to the shape of the bowl individually. The supports are felt-covered, which minimises disturbing noise, evens out smaller asperities and provides for slip-resistance.

All trestles are made of galvanised steel and afterwards coated with a robust and scratch-proof matt black powder-coating. Therefore the stands are also suitable for outdoor areas. The variant of raw steel with a rusted and sealed surface inspires by the charm of corroded metal and perfectly matches the industrial style of modern architecture!

Low weight, space-saving storage due to its stackability, easy handling and quick installation are just a few advantages of the "Crossline" series.

"Skyline" – Manhatten-Feeling on the buffet

"Skyline" – the original!

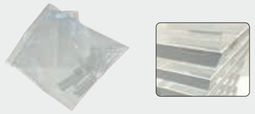

"Skyline" allows a maximum flexibility for the most exclusive buffet presentations. Different heights enable you to install big buffet platters on the one hand – on the other hand, they can be stabilised by insertion into the corresponding serration. The columns are made of highly-polished stainless steel and due to the standardised serration heights, they can be combined with the "Squareline" (pages 30/31) and "Curve" series (page 32).

LED luminaires, which are available wired or rechargeable, make it possible to illuminate the system in combination with light-diffusing tubes (page 46). Different light colours provide great effects.

"Skyline" – the original!

- Different versions: polished, matt black and white (golden and copper on request)
- Highest Zieher quality and perfect accuracy in manufacturing. Compare the original to copies of inferior quality!
- Compatibility with other Zieher systems
- 100 % fitting illumination
- Massive stainless steel 18/10
- Design by Zieher in 2009

We are happy to offer you an individual solution for transportation and storage of your miscellaneous items.

Please ask us!

The buffet system with 1000 faces!

The stainless steel displays of the "Squareline" series are available in two heights and three versions - highly polished, matt black and white coated. They can be stacked easily on top of each other by using different connector pieces. A 90° rotated arrangement of the stands increases the creative leeway tremendously and permits a buffet setup at an angle.

The connector pieces are available in glossy black or satin light-diffusing acrylic. In connection with the various versions of displays and buffet platters, countless possibilities for the creation of a buffet arise.

Optionally, "Squareline" offers the possibility to be illuminated from the inside over the full height. When using the satined connector pieces, their light-diffusing effect even enhances the spectacular sight. "Squareline" is based on the buffet classic "Skyline" (p. 24 to 27), thus a combination of both systems is possible.

The rechargeable LED-light (item 8150, optionally available, page 47) offers numerous fixedly preinstalled colours, as well as special programs like colour gradient and flickering-candle-effect. The compatible remote control (item 8151) allows the synchronisation of up to 20 LED-lights at the same time and enables the change of the complete buffet-colouring by just pressing one button!

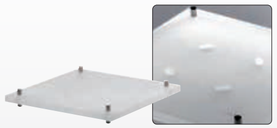

Alternatively and especially for fixed buffet installations, we recommend the use of the Zieher LED-lights with cable (item 8104, page 46).

With this item, 5 lighting colours can be set by using stick-on colour-filters.

The connector pieces feature slots, so that the cables can be laid invisibly through the columns of the "Lightning Buffet". To do this, the detachable lids of the acrylic tubes have to be removed. If cabled LED-lights are used, it is recommended to lay down all components of a "Squareline"- tower next to each other on the table to facilitate the installation of the cables.

Please note:

To illuminate the system, you will need one LED-light and one acrylic column in the fitting size (12 resp. 24 cm) for each "Squareline" stand. The acrylic columns are available in sets of 3 pieces (items 8120...) and can be found on page 46, the information on our LED-lights can be found on pages 46 and 47.

"Curve"

the buffet system in application

Design: Itamar Harari

Flexibility with a concept

"Curve" is made of 3 mm strong, galvanised steel with a high grade powder coating. This guarantees great stability and corrosion-resistance. The gaps between the bars were expressly chosen to make the raisers completely compatible with the systems "Skyline" (pages 24 to 28) and "Squareline" (pages 29 to 31). "Curve" is therefore not only suitable as a starter version, but also as an optimal extension of existing systems. All components can be stored in an extremely space-saving way. Simple and swift to install, "Curve" is the perfect equipment for outdoor areas, events and catering.

The "Zieher-System"

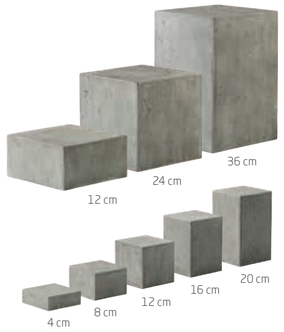

Zieher offers innumerable possibilities to present food optically appealing and highly flexible.

The "Zieher-System" with its different heights of 12, 24 and 36 cm or 8, 16, and 24 cm leads to a perfect composition of different presentation levels on the buffet, thus offering more flexibility in its arrangement. A wide range of buffet platters and trays of hardened glass, natural slate and laminated plastic in various styles is available on pages 52 to 61.

Thanks to the boundless possibilities in varying materials and designs, every buffet can easily be adapted to any accommodation. The system becomes part of the whole interior and assimilates harmonically into any ambiance.

"Luxor"
(from page 42 on)

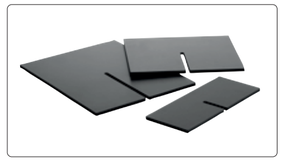

The indestructibility of laminated platters meets the advantages of plug-in systems. The plain displays are loosely stuck together, which ensures a quick and uncomplicated setup as well as a space-saving storage of the single components. Thereby "StiXXX" meets in particular the hard requirements of daily use in the catering business.

Zieher buffet platters and displays made of laminate are usable on both sides by the double-sided decoration. This exceedingly robust raw material is break- and scratch-proof, antistatic and dishwasher-safe and thus offers numerous advantages compared to other raw materials.

B060.24	20x20x24
B060.36	20x20x36

"Konkret!" – distinct design for highest flexibility!

The displays consist of a mixture of fibreglass and stone and therefore offer the deceptively genuine optics of concrete combined with low weight and high stability, which greatly facilitates handling.

Both variants of the displays (light grey and dark grey) are available in eight sizes; a dark grey XXL bowl impresses with huge size paired with light weight.

→ XXL-bowl "Konkret!" | p. 36

The dark-grey, double-walled XXL bowl inspires by its diameter of 100 cm and creates space for numerous drinks and cooled food. In empty state, it can easily be carried by one person. A filigree, but extremely solid stand made of powder-coated steel forms the perfect basis. A round glass plate separates ice from melting water and at the same time creates space for the Zieher rechargeable LED-light (page 47), which allows the illumination of the ice in striking colours. No matter if placed on the buffet table or on the stand – this bowl will leave a permanent impression on your guests!

7002.12	24x24x12
7002.24	24x24x24
7002.36	24x24x36

The buffet system "Neo" is made of anthracite coloured resin. The matt surfaces and softly rounded edges of these translucent cuboids appear unobtrusive and modern. The optionally available LED-lights (pages 46 and 47) are the ideal completion to put "Neo" into its true light. Thanks to the battery-operated LED-lights, which are waterproof to a depth of one metre and can be remote-controlled, even the ice in the ice containers can be illuminated from below. The large selection of different light colours enables spectacular effects!

The buffet displays "Classy" are made of translucent material and impress by their noble texture, which is reminiscent of Italian marble or alabaster.

"Classy" is available in the Zieher system heights of 8, 16 and 24 cm and can therefore be combined in various ways. The open bottom side of the large displays allows an effective illumination by the optionally available LED-lights (page 46 and 47).

The small cube has no open underside and thus cannot be illuminated. The advantage of this construction lies in its high functionality. Its dimensions of 24 cm x 16 cm x 8 cm enable a positioning in 3 heights - a useful supplement to the squarish displays.

8221.08	38x38x8
8221.16	38x38x16
8221.24	38x38x24

The shimmering displays of the "Luxor" series enchant by the colour play of golden shades in variable nuances. This effect is created by high-quality shell imitations, which are arranged fan-shaped on a fibreglass base in sophisticated handcrafting. The honed and highly polished, multiple sealing with resin (Polyresin) provides the surface with a striking depth effect.

"Solid"

The buffet displays of the "Solid" series are made of solid walnut wood and may be used as containers for cutlery or French bread, but they are particularly suitable for the elevation of the "Modul" base trays (p. 140) or other buffet platters.

The filigree finger joints at the corners testify to precise craftsmanship of the highest quality and guarantee perfect stability!

“Lightning Buffet“

The height of the columns items 8122... has been adjusted especially for the illumination of the “Skyline“ buffet system. The lids of all acrylic glass tubes are removable. Therefore the tubes can also function as supports for plates, bowls, etc.

Bringing light into the darkness!

The illuminated buffet stands, in connection with platters made of natural slate, laminated plastic or glass (from page 52), make every buffet shine in a radiant new light. The innovative LED technology does not radiate any heat and is powered by a harmless voltage. It is characterised by its longevity and its low power consumption.

LED-light with cable, item 8104...

For permanently installed buffets which are not dismantled on a daily basis, it is recommended to use the LED-light with cable item 8104.

The standard light is white; the alternative colours blue, yellow, green and red can be chosen by using the precisely fitting plastic covers items 8105... (available as accessories).

A set consists of 3 lights and the matching power supply, which can be fitted with a total of 6 lights. All cables are white. The power cable of the light has a length of 3 metres, which is enough to stow away adapter and power supply safely and invisibly under the buffet table.

The luminosity depends on the spatial realities; the actual colouring may deviate from the colours shown in the pictures!

Rechargeable LED-light with radio remote control:

The compact LED-light is controlled by remote control, which allows for a more flexible use of the Zieher “Lightning Buffet“ and renders it independent from any power supply and spatial requirement!

This creates a lot of new possibilities for the buffet setup: out in the open, next to the pool or in the middle of the room - without any troublesome cables and controllers that might get into the guests‘ or the personnel‘s way. The radio remote control item 8151 (to be ordered separately) rounds off the whole system in regard to function and handling and allows to choose the colouring within a range of up to 15 m without dismantling the buffet first. Due to many different colours and special programs, the buffet will fit into every kind of atmosphere. The lighting colour for the complete buffet can be changed by pressing only one button.

The luminosity depends on the spatial realities; the actual colouring may deviate from the colours shown in the pictures!

The entire instruction sheet with a detailed description of all functions is available at https://www.zieher.com/fileadmin/ZieherUploads/Bedienungsanleitungen/Bedienungsanleitung_Akku_LED_Leuchte__8150_.pdf

"V12" – Carbon

"V12" combines modern and reduced forms with the precious material carbon. The elegant and three-dimensional look of the carbon fibre paired with maximum stability – "V12" adds high-tech to the buffet!

Three different sizes of the "V12" displays offer a lot of possibilities for the individual composition of your buffet and permit, due to the standardised heights, an easy and simple combination with other Zieher systems. For an overview, please consult page 33.

→ Porcelain bowl "Cave" | p. 170

Cooling pillows

The cooling pads have been tailor-made for the melamine base to provide for an optimal cooling surface by the perfect fit. The pads can optionally be flipped, depending on whether the black top or the white bottom fits into the overall picture more harmoniously. This way, they are applicable inconspicuously, even with slightly translucent or satined buffet platters.

The attractive contrast of top and bottom can also be used on the laid table to deliberately set accents. Serving chilled food becomes a visual highlight. The high-quality case made of black or white nylon fabric looks very noble and yet discreet. It is filled with gel, which remains malleable, even when frozen and thus allows an adaptation to a wide variety of tableware used.

"Chiller-Base" – just stay cool!

The cooling elements are an elegant and simple solution for a quick and flexible installation of chilled platters. They can be arranged either at different heights by using displays or freely positioned on the buffet table.

The flat bowls are available in matt black and white melamine and have been designed specifically for food whose presentation can be extended significantly by cooling.

The puristic form, the compact height of only 35 mm as well as the restrained colouring allow a stylishly discreet integration into numerous buffet constructions. Tailored recesses on the underside of the trays facilitate symmetrical positioning on most Zieher buffet systems. Unobtrusive rubber buffers in the corners of the "Chiller-Base" ensure a non-slip and secure fit of laid-up platters in sizes starting from 42 x 42 cm (page 56–59).

Buffet platters and more!

Zieher is offering a wide range of buffet platters made of laminated plastic, glass and natural slate. Due to the wide choice of formats and types of materials, there are many possibilities of combinations with Ziehers buffet systems (pages 8 to 49).

The offer is being completed by various buffet stairs, trays and bowls (from page 60).

Buffet platters made of slate!

- Natural slate
- Food-safe sealed/unsealed
- 10 to 15 mm thick
- With rubber feet

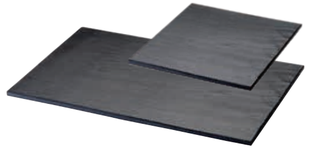

Please note:

Slate is a unique and exceptional natural product. The surfaces of our slate plates have the typical cleavage, which makes every piece a unique product. Small deviations in structure, thickness (10 to 15 mm) and weight of the platters is in the nature of the product and part of its precious and vivid appearance.

Specific groceries, especially those that contain fruit acid (citric acid) may damage the surface in case of prolonged contact. Therefore we recommend avoiding any direct contact with edibles.

The charger plates are not sealed. To achieve an evenly dark grey colouring, we recommend rubbing the platter with vegetable oil from time to time.

Buffet platters made of laminated plastic

- Rusted look, black intermediate ply
- 8 mm thick
- Break-proof
- Dishwasher-safe
- Scratch-proof, antistatic

The buffet platters made of laminated plastic are available in two neutral versions as well as in an extraordinary version. They are break-proof, scratch-resistant, antistatic and dishwasher-safe and impress with these excellent properties and the resulting advantages. All laminated buffet platters by Zieher have a dark middle layer and can be used on both sides because of their double-coating.

Please note:

With this decor, each plate is unique – none of them look alike.

Please note:

The glass steps items 5026... are adjusted to the Zieher system and due to their height of 12 resp. 24 cm, can easily be combined with many Zieher buffet raisers (page 33). All large steps are supplied in a sturdy wooden box!

VENTA by Büchin Design has developed an elegant buffet furniture programme for the high demands of the hotel industry and for exclusive events. It is equipped with a number of technical features to keep food hot or cold.

The tables are equipped with castors and can therefore be used very flexible in different rooms. They can be stowed under each other or dismantled and stored in trolleys in just a few simple steps.

The modular buffet table system STAGE can be assembled and disassembled in just a few easy steps, without the need for any tools.

All four tables fit into one trolley. The individual parts are safely stored, each part has its own place.

MODULAR BUFFET SYSTEM

- Adjustable heights
- Movable castors
- Nesting storage
- Trolley Transport System

all tables in a row / adjusted at the same height

Zieher and VENTA cooperate in the area of buffet presentation.
The Zieher table-top buffet elements harmonise excellently with the modular buffet system "STAGE" of the VENTA brand.

Buffet bowls

Please note:

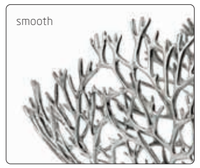

Since medieval times, pewter has been used primarily for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then the usage of pewter has shifted mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

Large numbers of single parts are casted from premium pewter and assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork. The products of the "Reef" series are genuine gems of dining culture.

The outside texture of the bowls differs within the series: whether smoothly rounded (p. 66/67) or roughly structured with dark, patinated deepenings (p. 68) – each variant has its own charm.

"Roots", "Matrix" and "Fakir" – Brass all of a piece

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

The bowls "Roots", a tight web of rootlike structures, and "Matrix", strictly geometrically constructed of hexagons, are entirely different in their shape but nevertheless belong together. This aspect makes the combination of the two so interesting. Besides the presentation of bread and fruit on the buffet, these bowls fascinate as sculptures or decorative elements as well. An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

All items are golden-coloured and partially dark patinated, further discolouration or oxidation is prevented reliably by the food-safe sealing of the golden parts.

→Buffet stands "Somnia" | p. 21

"Capiz"

→ Rechargeable LED-light 8150 | p. 47

Ivory-coloured clamshells with a nacreous gloss grant these products their special appeal. In combination with crushed ice and the Zieher rechargeable LED-lights, the double-walled bowls, produced in mosaic-look, create fascinating effects. The double-walled construction provides insulating characteristics. This prevents the formation of condensation on the outside of the bowls to the greatest possible extent.

Please note:

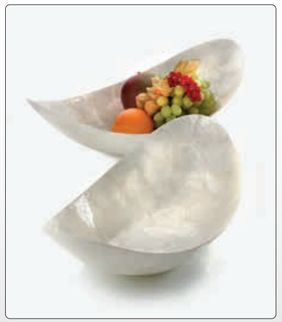

Suitable for cold and dry food, not dish-washer-safe.

"Orbis" NEW

The service trays "Orbis" are made of solid brass and furnished with a matt surface structure. The modern appearance of these products results from the matt-golden tint and the reduced creation. The trays are available in two sizes and predestined for the use in a bar, on the buffet or the service in a restaurant.

All trays are food-safe sealed, nevertheless the direct contact with food should be avoided. Primarily, the varnishing prevents from too rapid formation of patina, which is inevitable for brass. In the long term, this patina is actually desired as it is exactly this matured colour, occurring in the course of time and use, which exudes a very special charm. By and by, these trays become more and more beautiful, each piece evolves into a unique copy.

patina

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

2371.21	21.5	9	approx.2.0

The trays and bowls of the "Artisan" series are fascinating and diversified at the same time. The inside with its perfectly polished surface creates an interesting contrast to the matt outside. The handcrafted rim impresses by its irregularity and is crowned by a circumferential brass edge. The combination of hammered and plain surfaces, of massive stainless steel and brass, awards this series with that certain something.

Thermo bowls “Shine”

The stainless steel bowls of the “Shine” series are double-walled and therefore have an isolating effect. This helps to prevent water condensation – even at higher temperatures. Cold food stays cold and warm food stays warm longer.

The accentuated contrast between the highly polished outside and the unobtrusive finish on the inside (fine brushed stainless steel, ivory or taupe coloured) makes that series an eye-catcher.

taupe

bowl “Shine”

4810.01	approx. 38-40	approx. 9.5
4810.02	approx. 50-52	approx. 14

Please note:

Due to the complex production process, small air inclusions in the glass are inevitable.

Manufactured in old tradition

Each of these high grade bowls is unique and almost completely handcrafted. At this, coloured glass is completely covered with crystal clear glass, which awards the bowls with top brilliance and an impressive look. The handblown glass blank is modelled manually, whereby unique pieces are created which excite by their organic shape.

XXL-bowl made of grey glass

→ Rechargeable LED-light item 8150 | p. 47

This monumental bowl made of dark grey glass arches like a sculpture and melts optically with crushed ice to stage classy seafood or champagne in an opulent way.

In combination with the Zieher rechargeable LEDs, which perfectly accentuate the irregular structure of the glass, the presentation becomes even more dramatic! This effect is further intensified by the optical refraction of the ice.

This impressive bowl with a diameter of 82 cm can be placed free-standing on the floor by using the fitting rack (item 8213). But also right at the buffet table or arranged together with the stands of the "Crossline" series in different heights – these designer pieces know how to impress.

"Cave"

The glass version of the "Cave" bowl is available in two sizes. The soft tinge of this grey glass at first glance allows an unobstructed view onto the content of these shapely objects. "Cave" offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The content of the bowls remains protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance. These unique items also enthuse as a place to keep all kinds of accessories. The smaller version, made of china, is available on page 170.

glass bowl "Cave"
dark grey, round, handblown

item	Ø in cm	opening Ø in cm	height in cm
4815.18	approx. 18	approx. 14	approx. 11.5
4815.24	approx. 24	approx. 19	approx. 16.5

"Duplex"

The "Duplex" bowls, which can be used on both sides, create a harmonious setting for stylishly arranged dishes. If the closed side is turned upwards, a gentle trough is created for presenting sophisticated dishes. By using it upside down, there will be more capacity, which is ideal e. g. to fill in crushed ice.

glass bowl "Duplex"
dark grey, round, bottom side open, useable on both sides

item	Ø in cm	height in cm
4813.28	28	6.5
4813.35	35	7.5
4813.46	46	10

The handblown bowls made of grey tinted or varnished glass (8414.17) are restrained in their shape, but very versatile in their appearance. By combining the bowls with the gold-coloured stands of the "Somnia" series (page 21), opulent and extravagant buffet stagings can be created.

Optionally available silicone rings form a non-slip base and increase stability.

Please note:

All items shown on this pages are handblown. Therefore it is impossible to avoid variations in glass thickness, colour intensity and weight.

Item 4814.17 is varnished. Therefore we recommend hand washing for this bowl!

NEW "Mikado"

"Mikado" – cool staging!

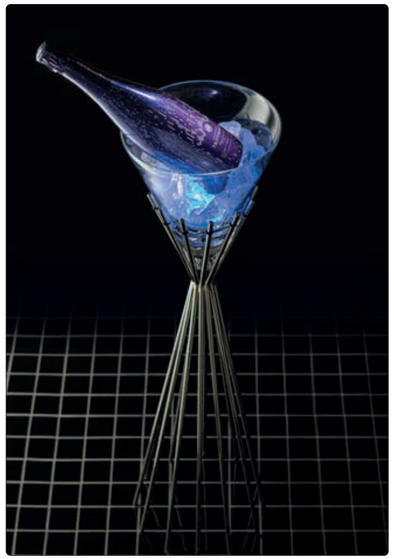

The bottle cooler "Mikado" is made of solid stainless steel and high gloss polished. Due to its weight and the generously dimensioned floor area, the solid frame has the required stability to offer the matching cooler made of hand-blown glass a secure hold.

Additional silicone rings on the upper side of the rods treat the glass body with care and avoid disturbing noise.

A very special highlight creates the optionally available waterproofed LED-light, which can be placed right inside the cooler. Multiple colours and functions can be adjusted by a remote control, an optionally available supporting ring keeps the light in position. All information about the LED-light can be found on page 47.

The glass insert of the "Mikado" bottle cooler can also be used as cloche. The reinforced quality, which is indispensable for the use as a cooler, implicates besides the slightly higher weight also an obviously improved stability. The integrated ball grip at the top provides an easy handling when used as a cloche (page 186).

Design: Itamar Harari

Design: Itamar Harari

ⓘ

Please note:

For one buffet stand "Stablo" XL ring item 8016.01 only one set of extension is required.

Extension for buffet stand XL ring

8017.40: for a total height of 80 cm
8017.60: for a total height of 100 cm
8017.80: for a total height of 120 cm

The buffet stands made of solid, brightly polished stainless steel impress by their high-quality workmanship and delicate appearance. Bowls and dishes appear almost hovering while slip-proof caps on the feet ensure safe support.

The buffet stand with integrated ring (item 8016.01) can be extended to heights between 80 cm and 120 cm with matching extensions. Massive and bulky buffet tables thus become almost superfluous! In addition to placing bowls, plates and platters (max. Ø 21 cm on the lower level), it can also accommodate unusual wine coolers made of borosilicate glass. These can also be placed in the "Stablo" stands in sizes M and L when positioned at an angle.

The shape of the coolers corresponds to the already known Zieher cloches (p. 183 to 185); borosilicate glass in a reinforced quality guarantees the necessary stability! Condensing water on the outside is drained off to the bottom tip. Dripping water can be collected by placing a small bowl on the floor or buffet table! Optionally available Zieher rechargeable LED-lights put champagne and iced food in the limelight!

"Falcon" – really detached!

This etagere is giving wings to the creativity at the buffet. A single one can bear up to three plates on its wings or, when used as a duo, fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters.

As a high-tea stand, the etagere carries plain white or black coup plates. Those plates fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service.

Etagere “DressCoat”

Food: Pâtisserie Walter
www.patisserie.de

→ “DressCoat” | p. 162
→ “Unique” | p. 154

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. The supporting rings with a diameter of 15 cm offer the possibility to insert not only plates and platters, but alternatively also bowls. Black silicone rings keep inserted porcelain in position and prevent annoying noise.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the “DressCoat” series (page 162). Numerous presentation areas on a total of four different levels can be created by placing additional plates directly on the table. The diameter of 22 cm is well suited to put different pralines, petit fours and other creations of confectionery into the limelight in an impressive way.

ⓘ We recommend the use of large plates on the lower level only

Buffet trees

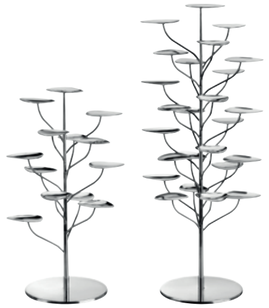

"Flower-Tree" – A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies. The shape of the leaves is based on the already existing plateau plates and "Flower-Tower" etageres (page 105). This opens up the option to arrange the buffet installations diversified and variable, but nevertheless harmoniously.

→ Miniature plateau plate | p. 106

etagere "Flower-Tree"

item	height in cm	number of levels
2208.13	51.5	13
2208.25	71	25

The "Flex-Tree" enthuses by its versatility! On these trees, plain discs replace the fixed leaves. With a diameter of 5.5 cm, they offer sufficient space to equip the tree either with glass, porcelain or stainless steel miniatures. To be on the safe side, they can be placed on black or white anti-slip silicone pads. This reduces the sound emission and at the same time increases the stability of the used miniatures.

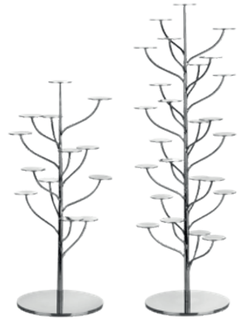

All trees are made of massive stainless steel and are accurately high gloss polished. The 8 mm thick foot is the perfect base and guarantees a safe stand.

"Table-Tree"

Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the new "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. The "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Each delicacy is held securely by an artfully shaped spiral and prevents from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

"Flower Tower"

Floral shapes in a steely gloss

Seemingly organic shapes in an interplay with the gloss and reflections of hammered and polished stainless steel make up the special charm of this product line. Two etageres and plateau plates in different heights (page 106) allow a visually harmonious yet flexible and diversified presentation of appetizers or desserts on the buffet.

The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and stage individually appetizers or a dessert.

natural slate, rectangular, with 24 holes (Ø 5 mm), with 4 feet of felt (not dishwasher-safe), for holder coil shape items 2167... or skewer item 1939.01 or miniature plates items 2203... (please order separately)

item	l x w x h in cm
8056	45x31x3

Please note:

These slate platters are unsealed. In order to give them an evenly dark grey colour and to freshen up the surface, we recommend rubbing the platters with some vegetable oil from time to time.

The massive slate platters with their 3 resp. 24 holes form a stable base for various uses. Whether coil shaped holders with matching miniatures made of porcelain and glass, skewers made of high-gloss polished stainless steel or presentation platforms in different heights – the skewer platters from Zieher offer numerous options to present small delicacies in an appealing way.

Elegantly served and presented in style - classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The classic mini format etageres effectively present petit fours, desserts, chocolates or other delicacies. The larger version is ideal for scones and jam during Five o'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table. Suitable inserts made of china or stainless steel are available on page 268 and 269.

ⓘ Equipped with rings size M, the fingerfood-tree is perfectly suitable for presenting portion jam in conical glasses, e.g. Bonne Maman

Please note:

The trees are being delivered with unbent branches; the bending has to be arranged before the first use!

The branches are made of stainless steel and will sag when loaded with food. This is why the branches should not be bent too far down when empty. In order to obtain a more favourable result, it is recommended to bend the branches one by one and to work in a circle from the outside to the inside.

The different attachments can be screwed onto the end of the branches, whereas the connection point should only be tightened up slightly. When using the rings or spiral supports, it is recommended to leave the connection point open by about half a turn, as they will turn into the apt position by themselves due to the weight of the attachments.

Design: Jochen Gromann

The fingerfood-trees by Zieher are absolutely delightful due to their extraordinary look and variable uses achieved by the different attachments!
Besides a clip that holds wooden skewers and a spiral for small wraps and waffles, we offer rings in three sizes, of which the medium size is especially designed for holding small conical jam jars (e.g. Bonne Maman). Velcro straps to fasten the 30 branches and a stout carrier bag are available from the accessory section and allow easy transport and space-saving storage of the bent trees.

item	Ø in cm	height in cm
4778	29	8.5

The high-quality cutting board made of fine end grain walnut wood is much more than a shapely and elegant kitchen aid. This product only unfolds its full potential in connection with the respective stacking rings and bowls.

All parts have a groove at the top, which allows quick and easy stacking of the various items.The milled groove of the cutting board serves on the one hand as a juice groove, on the other hand as a receptacle for various glass cloches. Thus aromatic types of cheese can be presented. A classic cloche made of handblown glass or an extravagant shaped cover made of highly durable borosilicate glass protects and stages the food at the same time. The stacking ring creates different levels of presentation when used in a clustered arrangement of cutting boards and trays. Also, the capacity of the bowls can be increased.

Accurately fitting connection plates made of hardened, white or black coloured glass, can be slid exactly into the grooves of the stacked rings and thus work as buffet platters between the columns. This creates additional space and raises the flexibility of this system at the same time.

Cutting board, ring and bowl are sealed with high quality oils. Especially regarding the cutting board, this enables the simple refurbishment of the surface.

Handblown cloches

Each cloche on this page is handblown and handcrafted. In contrast to the cloches made of borosilicate glass (page 117), these items are made of a single massive glass drop. Air inclusions and minor streaks are a sign of individuality and cannot always be avoided.

Borosilicate glass cloches

Cloches made of borosilicate glass are heat resistant, dishwasher-safe and very easy to handle. The main features of this material are a great resistance against heat and changes in temperature as well as a high breaking strength. Each item is manufactured by hand and therefore shaped individually.

4768.08	43x30x8
4768.12	43x30x12
4768.16	43x30x16

The "Mercato" buffet baskets made of walnut are inspired by classic market boxes, but they are superior in many respects. Finger joints in the corners for maximum stability, solid walnut in modern design as well as deliberately chosen dimensions of the heights and lateral cutouts offer numerous advantages. "Mercato" can be converted quickly and flexibly into a buffet display by the use of buffet platters. These platters (from page 52) can simply be laid on or pushed into the lateral cutouts of the baskets (max. width 21 or 34 cm).

The integrated rubber feet ensure safe standing and guarantee the stackability of the baskets. Bread, rolls and pastries remain crisp and fresh longer, as the slotted bottom plates allow sufficient air circulation.

The "Solid" bed tray is a nice addition to this system. Due to its integrated foldable feet, there is no need for displays for elevated positioning. For more information on the bed tray, please see page 291, for the fitting "Solid" breakfast buffet, please check pages 120 onwards.

Bread and more – attractively presented!

The presentation of bread is not only important at the table, but at the breakfast buffet, too. The variety of baked goods wants to be put in the limelight.

Oblique displays for one or two wooden trays allow for a clear arrangement of various types of bread. With the help of a connector piece, two of these tray displays (item 4746) may be stacked and used on top of each other - the ideal solution for small buffet tables. A fitting cutting board including a crumb drawer and an exchangeable grate, a cutting board made of end grain wood as well as various bridges (page 124) complete the series and provide the healthy and diversified breakfast with a new look.

Besides the flat bread tray you can also find a deeper version of this tray, which is suited especially for the presentation of rolls, buns, biscuits and pastries. A removable grate provides air circulation, freshly baked buns remain scrumptious longer. Two kinds of divisions for the tray offer space for several miniatures (from page 279) and allow for a flexible use of the system. A cutlery insert for the deep tray as well as an insert for slices of toasted bread round off the range.

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the woods warm brown colours in different shades and its intensive and distinctive grain make every product a unique item.

Show cooking is a popular trend!

Whether using it for catering, at events or at the hotels own buffet, the solid wood cutting boards by Zieher are pleasing eyecatchers and offer high functionality. The matching bridges can be equipped with bowls, putting everything tidily within reach for the work behind the buffet.

The dimensions of both cutting boards and bridges have been chosen in such a way, that exactly two boards and two bridges would fit into a regular transportation box. This is extremely useful when it comes to storing the items for their daily use and transportation for catering purposes.

More items from this series can be found on pages 247 to 257.

Please note:

The Zieher cutting boards are oiled. The use of the cutting boards naturally wears down their surfaces. In case of smaller abrasions, rub down the surface with a thin layer of vegetable oil or special care oil for wooden kitchen countertops to refresh the surface. The removable grate for the bread cutting board (item 4733) can be ordered separately as a spare part (item 4733.R). The above mentioned items are not dishwasher-safe. Please check the enclosed leaflet for detailed care instructions.

Stackable in all usual transport boxes with a size of 60 cm x 40 cm (e. g. meat box, height approx. 20 cm)

The Roomservice tray, as well as the bed tray, allows you to eat directly from it due to the recessed longside.

The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The tray also cuts a good figure on the buffet. The positioning feet make it possible to dispense with the use of displays for heightened placing. A speedy setup and flexible handling facilitate daily operations.

The rubber feet at the base are set back from the rim to enable the transport on a tray trolley in 1/1 EN-format (60 cm x 40 cm)

The shapely stand always provides the appropriate possibility to set up the "Solid" room service tray (item 4735) in the hotel room, but also in the restaurant. Combined with Zieher buffet platters in the format 2/1 GN, it easily and flexibly creates new spaces at a comfortable height. Thus, it is predestined for the use at the buffet and during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonises perfectly with other buffet items of the series (from page 114) and can be combined with them very well. Rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

Serving platters made of walnut!

Sublime in their appearance, unadorned in design, practical by compact formats and highly functional in combination - the solid wood boards of the series "Connect!" convince as a snack board, serving and cutting board or as a presentation platter, created by the combination of several elements. "Connect!" is an extremely versatile tool for everyday use. All information are available on page 251.

The cutting boards are pluggable and can be connected with each other.

Please note:

Please note the care instructions: not dishwasher-safe, do not immerse in water!

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate-grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called "sharing plates" - can be staged appealingly. For bigger buffet setups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements and enables beautiful presentation areas on the buffet.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

"Bento Box" – flexible mobility

Matt black melamine, modern design and subtle contrasts, created by different surface structures, form the perfect setting for individual creations and popular classics such as burgers, club sandwiches or salads.

The box is divided into a main compartment for plates up to a diameter of 28 cm and a narrow side compartment for cutlery and napkin or miniatures made of glass and porcelain.

Optionally available inserts create additional space for side dishes, sauces or dips, when placed above the cutlery compartment. Up to four of these boxes can be placed in a Bento Box if required, and, with a correspondingly flat content of the main compartment, create a second level for even more flexibility.

The cover has decorative ventilation slots to dissipate steam generated by hot food. This lid can also be used as a tray, whose less finely textured inside has an anti-slip effect.

Box, insert and lid are sold separately and can be combined as desired. All components are stackable. This way, they guarantee a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time.

Advantages of melamine:

- dishwasher-safe
- food-safe
- odourless
- easy-care
- modern design with matt-black surface

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

Robust and elegant – melamine!

The advantages of melamine, such as dishwasher-resistance and food-safety, are particularly evident in daily catering use.

The matt black surface of the Zieher melamine items generates a superb contrast to glass and porcelain and impresses by its pleasant haptics. The trays are available in common GN formats and in three slim rectangular formats.

Different boxes made of the same material can be arranged in a variety of combinations on all melamine trays and thus offer enormous potential for a use at the Flying Buffet, in catering, at the bar or at the breakfast buffet. A selection of suitable combinations is available on the following pages.

The sturdy containers can also be used as plain elevations for platters and trays. Without additional efforts in procuring material, it is possible to arrange varied buffet presentations quickly and easily.

The bridges and spoon rests (page 142) can be used on all trays, non-skid rubber feet on the bottom side facilitate the service enormously.

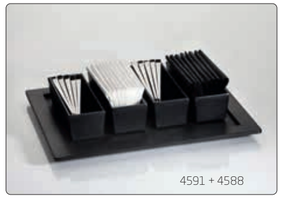

4589 + 4594

Please note:

“Modul” – walnut

Solid wood from the walnut tree, which is one of the most precious and most beautiful types of wood, forms the basis for this series. Both the woods warm brown colours in different shades and its distinctive grain make every product a unique item. The high-quality workmanship in combination with the food-safe sealing guarantees long durability, even in everyday use.

“Modul” is a flexible product ready for “Flying Buffet” service – and therefore ideally suited for the use in the catering area. The slim, oblong format of the base tray, which is available in three sizes, renders the often cumbersome service at crowded standing receptions barrier-free and uncomplicated. The trays can be variably fitted with glass or porcelain parts, a bridge for glasses or a spoon bench for 4 spoons. When using two spoon benches, 4 long skewers can be placed safely on top.

“Modul” is manufactured from solid walnut wood or from melamine in a modern matt-black design.

ⓘ The grooves at the bottom side of the tray let water from the dishwasher run off.

The advantages of melamine are manifold. It is dishwasher-safe and food-safe, which becomes evident in daily catering use! The smallest tray is 53 cm long and is therefore partially compatible with existing GN-systems. All trays are stackable.

Besides the merely technical properties, the flat black trays differ from the variant made of walnut by their modest design and modern appearance.

A breeze of enchanted forest

The imperfection and individuality of handmade ceramics convinces, opposite to the standardised results of industrial manufactured bulk goods, by its very charming and natural flair.

It's only the used reactive glaze that awards the organically shaped plates and bowls of the ceramic series "Bosque" their very special charm. These effect glazes react during the firing process with special ingredients and thus create fascinating patterns, which are basically similar but never identical. They emphasise the handmade character of the crockery and make each piece unique.

With "Bosque", a play of colours of different shades of green, blue and grey is created in fascinating gradients and effects that exude an elegant vibrancy and a festive mood.

5185.21	21/6	1.0	6 pcs
5185.27	27/6.5	2.0	6 pcs

The glass plates and bowls of the "Gelo" series set frosty accents and convey a high valence on the set table by their satined surface and robust style. The bowls, which feature a slight structure on the inside, harmonise very well with the smooth surface of the organically shaped plates. All items of this series are made of extra white special glass which, compared to standard glass, contains a significantly reduced green component.

NEW “Bolla”

The reluctant design and plain geometry of these plates result in a perfect basis for the modern staging of premium dishes.

The rampant elevated rim creates sufficient space, the subtle structure of the almost pure white glass also optically forms the frame for extraordinary dishes of the haute cuisine.

coup plate “Bolla”

item	Ø / height in cm	content in l	PU
5182.16	16/5	approx. 0.67	6 pcs
5182.21	21/8	approx. 2.0	4 pcs
5182.27	26.5/8	approx. 2.75	4 pcs

The plates and bowls of the "Unique" series are made of clear glass, which is awarded an inimitable character by adding white glass components. This creates individual streaks and swirls, which assemble to highly exciting patterns. The underside of the plates as well as the outside of the bowls are blasted, which results in satined optics and pleasant haptics.

"Unique" presents - in shape and decor - a counterpart to the uniform character of industrially manufactured mass products and proves to be as unique as its users.

Dark accents!

The "Sombre" series combines the robustness of porcelain with the individual charm of unique pieces made of ceramic.

Particularly resistant hard-paste porcelain enables the production of comparatively thin and filigree parts, which are provided with a matt black glaze.

The deep dark hue of the matt glaze deliberately focuses on decent irregularities and puts the served dishes into the centre of attention. The organic shape creates a subtle tension. It fits into any environment without losing its individuality.

Please note:

Due to the special glaze, irregularities such as running marks or inclusions can appear on the underside of the items. These deliberately contribute to the organic, rustic charm of the items and are unavoidable.

"Pulsar" – Sparkling impulses!

This gourmet plate is predestined for appetizers, intermediate courses or desserts.

The surface is reminiscent of the playful waves created on a smooth lake after a stones throw. The viewer's gaze purposefully wanders to the centre of the concentric design and this way, the served dishes come straight to the fore.

"Pulsar" is made of high-quality hard porcelain in a surprisingly soft composition and is available glazed in glossy white or in matt black.

Borosilicate glass in its most beautiful shape!

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The unglazed outside of the porcelain bowls is reminiscent of acorn caps.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

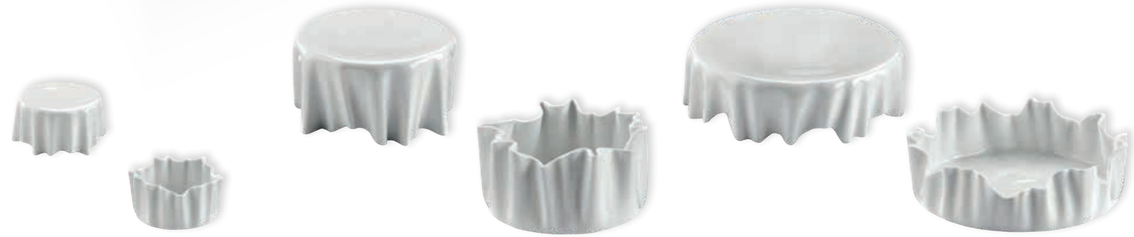

If the item is used upside down as a plate, the two rings on the big plates underside can be used on the one hand to separate the prepared dish into different sections and on the other hand the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

Design: Nadine Podewski

"DressCoat" was created by the glass and porcelain designer Nadine Podewski. The creation of the plates and bowls respectively is characterised by the apparently free falling drapery of table cloth. This creates a seemingly weightless, almost floating effect. The slightly concave shaped surface offers space for artfully decorated dishes and reliably avoids the sloshing of sauce.

"DressCoat" is available in three different sizes. Besides the main application as a plateau plate, each item can also be used as a bowl. The falling folds add up to an exciting game of shapes – in particular if used as a bowl.

→ Etagere "DressCoat" | p. 100

Food: Pâtisserie Walter (www.patisserie.de)

Bedded on glass or china

The organic form of these extraordinary objects offers an ideal presentation area for high-end dishes or to keep various items of everyday life. The glass cushion also cuts a fine figure when used as a soap dish. The larger version made of porcelain sets the scene for every dish in a surprising way and forms an exciting contrast to conventional porcelain shapes.

"Collina"

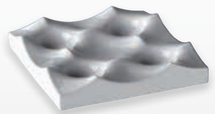

"Collina" is perfectly suitable for antipasti and delicacies from the patisserie, but also a selection of fruit in the hotel room can be beautifully put in the limelight.

In order to protect the sensitive surfaces of furniture, every plate comes with feet made of rubber, which can be stuck on if needed. The rigorously geometrical structure permits the assembling of several plates, which allows to enlarge the effective area of the platters in both length and width. When looking at the surface from the side, the arrangement has the appearance of a desert landscape arbitrarily formed by the wind.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

→ Information about the utilisation of the pillows at the buffet | p. 50

"Cave" consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptics of the unglazed outside. The miniature bowl is predestined for the use at cocktail and hors d'oeuvres receptions or at the flying buffet and can be carried comfortably and perfectly fits in the palm of the hand.

The glass version of the "Cave" bowl is available in two sizes and offers the fitting framework for fruit, nuts and nibbles as well as for tastefully arranged pasta or salad. The soft tint of the grey glass, which is hand-blown in the traditional way, stages the contents of these shapely objects. They remain protected by the shell of glass, the amply dimensioned opening seduces to snap at a chance.

"Cuspis"

The cloches and porcelain coasters of the series "Cuspis" are inspired by the nuts of the oak tree. The ball-shaped handle at the tip of the cloches allows for an uncomplicated handling of these classy covers. The unglazed outside of the porcelain coasters with its distinctive texture is reminiscent of acorn caps. The coaster can be used on both sides.

If the item is used upside down as a large plate, the two rings on the plates' underside can be used to separate the prepared dish into different sections and the cloches of the "Cuspis" series may also be used with it (4940.10 on the inner ring, 4940.25 on the outer ring).

The glass cloches, which are available in 6 sizes (diameters 9 cm to 30 cm), delight by their high quality and unusual form.

The covers are heat resistant, light but robust, dishwasher-safe and easy to use. Each item is manufactured by hand and shaped individually.

The raw material for these items is borosilicate glass, which is mainly used for laboratory dishes.
Its main features are great resistance against heat and changes in temperature as well as high break resistance. A wine cooler of the same design is available on page 92/93.

Please note:

The cloche 4848 can also be used as an elegant wine cooler and is therefore manufactured in stronger quality. The result is a slightly higher weight with significantly improved stability. The suitable stand "Mikado" is available on page 215.

→ Wine cooler stand "Mikado" | p. 90 NEW

The cloches on this pages are handblown and, in contrast to our cloches made of borosilicate glass (page 184), are worked by hand from a solid glass drop. Therefore small air inclusions and minor streaks cannot be avoided completely. Each cloche is unique, the result is a harmonic enlivenment of the buffet for an attractive price.

Wine glasses, decanters, bar & more

The VISION of simplicity

No distinction is made between red wine or white wine glasses in this collection - the glasses are simply theme-based or character-based. The names of the glasses FRESH, STRAIGHT, INTENSE, BALANCED, RICH, NOSTALGIC and SIDE clearly explain what they are used for: You intuitively reach for the glass, which in the best way presents the flavours of the wine you particularly wish to emphasise. If you want a powerful wine to be more harmonious or a touch more lively and fresh, you pick the glass with the designation, that mirrors your requirement best.

Filigree craftsmanship

You have never seen wine like this!

Silvio Nitzsche, wEIN | KULTUR | BAR Dresden

Silvio Nitzsche

"Of course, there is life without wine, but who wants that?"

During his career as a sommelier, which has spanned more than twenty years, Silvio Nitzsche has looked after both guests and wine in some of the best Michelin-starred restaurants.

Some of his high-profile positions have been:

- Sommelier at „Dieter Müller Restaurant" (19,5 GM, *** Michelin), Bergisch Gladbach / GER
- Sommelier at „Erna's Elderberry House", Oakhurst / CA, USA
- Assistant Restaurant Manager and Sommelier at „Speisemeisterei" restaurant (18 GM, ** Michelin), Stuttgart / GER
- Management of the wine retail and wholesale company Kierdorfwein

Silvio Nitzsche has now found a new home in the city of Dresden, where he has worked as a sommelier for over ten years at WEIN | KULTUR | BAR, which he opened there. He and his team have managed to establish a wine bar that many wine enthusiasts consider to be one of the best in Europe. He has succeeded in creating a place where wine is a permanent feature. Therefore, he reached the honour "Best wine menu of the year" already six times.

In his professional life, he has won almost every recognition and award for his work and his company. In 2018, Silvio was voted one of the ten best sommeliers in Germany by "Der Feinschmecker" magazine and received the "Award of Honour" 2019. Most recently, he was named "Sommelier of the Year" by Falstaff magazine.

Filigree craftsmanship meets innovative design

"Zieher glasses are all about top quality craftsmanship, which is created in one of the most innovative and best glass-blowing workshops in the world. Each glass is unique and has been created from lead-free crystalline glass, using a traditional glass-blowing method.

As well as having a perfect, highly sophisticated and fascinating design, the glasses in the VISION range are guaranteed to provide maximum aroma and optimum development of the wine.

However, it is particularly the fascination of the light, the colours and the visual depth, that makes it impossible to tear your eyes away from the glass, because: You have never seen wine like this!"

Silvio Nitzsche

NEW FRESH now with effervescent point!

Get to know VISION!

The glasses FRESH, STRAIGHT, INTENSE and BALANCED are also available in a single package.

FRESH
crystalline glass, transparent, handblown, including effervescent point

item	Ø / height in cm	content in ml	PU
5480.01	8/24	approx. 340	2 pcs
5480.01-1	8/24	approx. 340	1 pc

For extremely fresh white wines, Prosecco or any variety of sparkling wine, light rosé wines

The wide opening of this glass allows the carbon dioxide in sparkling wines to gently evaporate. This prevents the aroma perception of the nose from being broadsided by a concentration of carbon dioxide, which is often the case with classic sparkling wine glasses. The glass provides the palate with a centralised aroma concentration, which allows the wine to express its exquisitely lively, refreshing and light character. The development of the flavour-carrying, freshly acidic structures is encouraged, and individual features of the bouquet are brought into focus. The effervescent point at the bottom of the goblet creates a fine string of rising carbon dioxide bubbles in sparkling wine.

STRAIGHT
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.02	9/27	approx. 540	2 pcs
5480.02-1	9/27	approx. 540	1 pc

For pure grape varieties and fruity / aromatic red and white wines

The characteristics of the wine are reflected harmoniously one-to-one in this glass. The authenticity of the aroma culture of a grape variety is made discernible and presented in an unpretentious way, which makes this glass particularly suitable for all types of authentic grape varieties such as Riesling or Sauvignon Blanc. Light, aromatic red wines are transformed into pure drinking enjoyment.

INTENSE
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.03	10.5/28	approx. 640	2 pcs
5480.03-1	10.5/28	approx. 640	1 pc

For opulent, great growth, powerful white and red wines, rustic, acidic white and red wines, young and middle aged Bordeaux wines

The tapering neck of this glass intensifies the aroma molecules, which are positively hurled out of the glass. The acidity is harmoniously structured in the fruit bouquet and completes the opulent overall sensation of strength. The glass provides intensive oxidation, making it ideal for any wine that can be decanted or served in carafes.

BALANCED
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.04	12/25	approx. 850	2 pcs
5480.04-1	12/25	approx. 850	1 pc

For white and red Burgundy, great Piedmontese wines, highly complex but sensitive white and red wines, extremely opulent rosé wines and old vintage champagne

A perfect glass for wine that is not for decanting due to its sensitive structure, but still requires a great deal of air. This crystal emanates pure consonance. Even with discordant wines, it succeeds in creating a concentrated and highly elegant impression. This glass turns wine into a complete aromatic experience, without overdoing it.

→ Wine glass lid "Tesoro" | p. 198

The Zieher Food – VISION

The VISION series is predestined for wine and has been created to perfectly represent its different facets. In addition to this, the glasses offer an extraordinary platform for small delicacies or complimentary dishes from the chef. The harmonic wavy shape of the bottom creates an eye-catching ring when filled with spume or liquids. The depression in its centre provides space for amuse bouches or decorative highlights.

Please note

enclosed care instructions!
Further information | p. 200

RICH
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.05	7/23	approx. 280	2 pcs

For fortified, sweet and dessert wines and any type of distilled beverages

A glass for the majority of heavyweight or high-proof drinks. The small presentation surface ensures that the wine or brandy does not become overly concentrated, so that the heavyweight aromatic elements are released in a nuanced way. Due to the glass having a narrow opening, the nose cannot go in very far, which prevents the perceiving mucous membranes from receiving a barrage of alcohol.

NOSTALGIC
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.06	10.5/16.5	approx. 250	2 pcs

For cocktails or as a food glass

The wide chalice is perfect for elegant presentations of creative cocktails, spectacular hors d'oeuvres or sophisticated sweets. Ideal in combination with SIDE for plain water, for easy service distinguishing both types of water.

SIDE
crystalline glass, transparent, handblown

item	Ø / height in cm	content in ml	PU
5480.07	9/10.5	approx. 480	2 pcs

For carbonated mineral water and soft drinks

Complementing the wine glass series, this glass is the tasteful companion for a stylish presentation of carbonated mineral water and soft drinks. The carbon dioxide is harmonised and the acids and mineral elements of fine sources are delivered to the tongue and the palate in a refreshing way, without being intrusive.

The product:

The "Tesoro" wine glass lid preserves the volatile aromas and fits on every VISION wine glass. At the same time it protects the wine from flying insects and other foreign bodies.

The lids are made of high-quality borosilicate glass, which originates from the laboratory sector and is known for excellent chemical resistance and high light transmission in combination with a flawless surface quality.

The break-proof glass can easily be cleaned in the dishwasher and is odourless - the basic requirement for preserving the aromas of the wine.

Putting the rule to the test:

Take two glasses of the same kind. Now fill both of them equally. "Seal" one of the glasses with "Tesoro" and leave the other one open. Wait for just five minutes and then smell both glasses.

Both wines will be identical in taste! This reflects the development the opened wine is nevertheless going through. Note the variety of aromas, which you can absorb and analyse in the glass previously closed with the lid. You will be astonished.

Tapas culture:

Tapas (lit.: small lids) meanwhile have become a gastronomic concept. According to the actual literal origin, you can arrange accompanying snacks and sweets on the "Tesoro" and serve them to your guests with the wine glass.

wine glass lid "Tesoro"
borosilicate glass, transparent, handblown

item	Ø in cm	height in cm	PU
5478	9	2.3	2 pcs.
5478-06	9	2.3	6 pcs.

Covers fine wines, preserves volatile aromas and acts as a serving lid.

An aid to wine enjoyment!

"It's not just a wine glass lid, it's about capturing transience.

Hardly anything is as volatile as the wine aromas that escape from an open bottle or a filled wine glass. It happens automatically and naturally. It is irreversible and, in retrospect, often leaves a feeling of regret for not being able to capture the moment.

Sometimes it's in fact the small and inconspicuous things that leave a particularly big and lasting impression - like the "Tesoro" wine glass lid. It creates wine experiences you have never before consciously and obviously perceived."

Silvio Nitzsche, WEIN|KULTUR|BAR, Dresden

The function:

Inside a wine glass, a microcosm of different aroma molecules is created. The variety of primary, secondary and tertiary fragrances emanates from a wine glass in several stages and cannot be enjoyed in interplay.

The "Tesoro" lid preserves the volatile aromas within the glass. The wine does not develop more slowly, but the fragrance molecules, which normally vanish, can be perceived gradually or together - at your own discretion. Thus the little enjoyment helper enables a completely new wine experience.

Care instructions VISION:

To maintain the attractive appearance of the glasses for as long as possible, we recommend washing by hand. If you do use the dishwasher, we suggest the following:

- Select the shortest possible rinsing cycle at low temperatures, use a cleaning agent that is suitable for glasses, and ensure that the water hardness is between 4 and 6.
- Remove your glasses from the dishwasher as soon as the rinsing cycle is completed if possible.
- Polish your glasses with half-linen or microfibre towels for the best result. Cotton towels may leave small scratches and traces of lint.
- It is best to use 2 cloths for drying. This way you can polish the glass from the inside and outside at the same time. Please avoid to turn the base, as this may cause the stem to brake.

Further information:
WWW.ZIEHER-VISION.COM

The premium polishing cloth made of microfibre is scratch- and lint-free, which makes it excellently suited for polishing wine glasses and decanters. The polishing cloth is washable at up to 90 degrees celsius and ensures streak-free results. Please follow the care instructions.

For series VISION, we recommend the CAMBRO - Camrack® Warewashing System

If you are interested or if there are any questions, please don't hesitate to contact your Cambro representative.

The Camrack® Warewashing System will protect your valuable stemware and tumblers not only during washing, but also during stacking, storage and transportation. This helps to avoid costs related to damaged glasses. Detailed information about the Camrack® Warewashing System is available at www.cambro.com.

Camrack® 4-in-1 Warewashing System

- Efficient washing
- Optimum sanitary storage
- Inventory control
- Safe, sanitary transportation

Camrack® Warewashing System

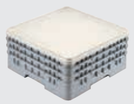

Cambro® offers a 4-in-1 system where glassware is washed, stored, identified and transported in one single unit. This multipurpose unit involves the Camdolly®, Camrack® compartment racks and the Camrack® cover.

Feedbacks to the wine glass series VISION

Andrea Zigrossi, Italy
instagram.com/trotterwine

"I can say that my first encounter with Zieher glasses was "love at first taste". Finding glasses that enhance the tasting experience to the maximum is not easy, and the VISION Series succeeds in full! Thanks to the unique design and the lightweight material, the wine is excellently expressed making the tasting flawless."

Annika Hohmann, Germany
instagram.com/the_hunting_wine_girl

"Special about the VISION series is that we are talking about character glasses. We approach the wine individually through the glass and thus receive a much more intense experience of pleasure. The glasses are not only eye-catching but also enrich our palate."

Thomas Dötzer, Germany
www.doetzers.de

"From the very beginning, we have been excited by the appearance and the design of the glasses. But after the first degustation, we have been enthusiastic! We did not want to stop tasting. The wine simply gains a different character. The BALANCED glass makes decanting superfluous and a Grappa out of the RICH glass is simply a great experience!"

Emanuele Trono, Italy
Instagram.com/enoblogger

"My experiences with the Zieher VISION series have been outstanding. The glasses praise the wine, they are extremely light, give expressiveness to the wine and are also a beautiful design object. They are a must-have for every wine lover and I also became Zieher-addicted."

Ed Agg, Australia
instagram.com/thecellarpost

"The Zieher VISION range is the marriage of exceptional design and an uncompromising approach to enhancing the wine experience. It's these characteristics that make the VISION range both a work of art, and the most precise, reliable, and exciting glassware one can own."

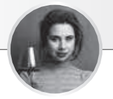

Walid Romaya, USA
instagram.com/princeofwine

"As a wine influencer, I have tasted thousands of wines in all glass shapes and sizes. The INTENSE wine glass is the perfect balance of beauty and functionality. It is a piece of art in your hand, that delivers and intensifies the wine aromas and characteristics through its unique and beautiful bulbous base. When using the glass for wine tastings in bars, people literally flooded me with comments about its beauty. Simply spectacular and one of the best wine glasses I have ever tasted with."

Rasmus Christensen, Denmark
instagram.com/winewherever

"The VISION series have a remarkable ability to bundle the fragrance, while providing an elegant and aesthetic appearance."

Elisa Dublyanska, Italy
instagram.com/ilviaggioinuncalice

"The INTENSE glasses from the VISION collection are my favourite! A perfect combination of quality, innovative design and elegance. They give a unique tasting experience."

Further information about "Doppio"

"Doppio" – how about a little extra?

In the "Doppio" decanter, wine is given a double stage that attracts attention and provides surprising effects.

The geometric silhouette and the reduced design directs the view to the inside, because the whole secret of this extraordinary design discloses in filled condition.

Attractive visual effects appear already during the pouring process when the wine is divided onto both levels of the "Doppio" decanter. It almost seems that the wine is levitating.

In addition to the natural flow of the wine, which pours over the inside of the decanter onto the two levels, the division into two levels also has a beneficial effect on the development of the wine. The splitting creates a significantly larger surface of the wine with a comparatively small space requirement on the table, which maximises the possible oxygen contact. The division also remains when pouring out, so that the cascaded flow creates a waterfall effect, which additionally increases aeration through swirling.

"Doppio" is elaborately handcrafted from high quality borosilicate glass, which is robust and easy to clean. The ideal charge of the decanter is 0.75 litre in order to generate maximum oxygen contact and the most beautiful optical effects.

Design: Itamar Harari

"Star" - mini

Uniqueness in practice

"Many decanters provide a fast but completely unbalanced development of wines because the wines develop only by a macro-oxidation on the surface. It's more balanced and harmonic to implement the necessary oxygen in a very soft and gentle way.

The filigree rays of the centric star animate the served wine to a very soft enhancement. During the slewing, the oxygen is mildly folded in and integrated into the wine. Thus the wine starts to develop on its own terms and not – as with other decanters – just on the surface.

The swirling of the wine is a fascinating view and helps in a three-dimensional development to harmonise the acid and to synchronise different levels of aroma.

By using borosilicate glass as raw material for this decanter, which sticks out by its extremely smooth surface, another highly pleasant effect is that the aromatic molecules aren't expelled from the wine but allowed to present themselves completely in the wine glass. The aerated wine becomes extremely balanced, carefully crafted and centered. An additional value which is simply priceless!"

Silvio Nitzsche, WEIN|KULTUR|BAR Dresden

Please note:

The ideal charge to provide a maximum of oxygen is 0.375 ltr. ("Star" - mini).

The small "Star" - mini is particularly suitable for the decantation of open wines or small bottles. The ideal charge to provide a maximum of oxygen is 0.375 ltr. The reduced size allows to decant white wines and still to temper them in wine coolers. Also for dessert wines, the staging of innovative high-end cocktails, flavoured spirits, to the point of exotic juices – this unique product is the perfect solution.

"Star"

The art of decanting

The decanter "Star" synergises the aesthetics of a unique copy with the functionality of a professional tool for vinophile pleasure.

Based on products from glassblower Detlef Greiner-Perth and presented by Silvio Nitzsche, "Star" is possibly the most fascinating wine carafe in a long time, due to its exceptional design.

The individual star raises each carafe to an exceptional piece and forms a fascinating basis for discussions with interested guests. This artistically designed centerpiece becomes a unique element in a complex process due to numerous processing steps. This is pure luxury in our uniform world because not a single "Star" is like another.

Idea: Detlef Greiner-Perth

reddot winner 2020

The big "Star" has a recessed grip in the bottom, which on the one hand improves the swirl during filling and slewing, on the other hand it ensures good handling and a secure hold when serving the wine. The collar, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

Follow us on YouTube: Making of "Star"

"Eddy" - mini

The small "Eddy" - mini is perfectly suitable for the decanting of wines by the glass and little bottles. Thereby the ideal charge to maximise the content of oxygen is 0.375 litre. The compact design is perfectly suitable to decant white wines first and then to temper in a wine cooler. By the extravagant character of this design item, even high-end cocktails and other exotic creations can be staged harmoniously.

The basic material for this development worker for wine is extremely robust, high-grade borosilicate glass. This type of glass, which stands out due to its dense structure, extraordinary transparency and hardness, is the precondition for the implementation of the introversive swirl elements. In an interplay with light and the contained wine, they create visually interesting colour reflections and graphic effects.

"Eddy" - the wine development worker

"The decanter "Eddy" defines the world of extreme wine instruments in a completely new way. Their functionality has seldom been united with an aesthetic language of design in such a spellbinding way. The matchlessly fast-paced development of structure, which all wines undergo in that respirator, is really fascinating! Once rotating in this texture stimulator, due to the thousand-fold swirls at the conical indentations, the wine goes through a process, whose behavior is equivalent to an oxidation reaction of several hours, within a few seconds."

Silvio Nitzsche – WEIN | KULTUR | BAR – Dresden

The volume of the big "Eddy" has been dimensioned in a way that, with a filling of up to 1.5 litre, the extension of the wines surface becomes as large as possible. Due to the flattened bottom, "Eddy" stands safely and straight, the ring, which is included in the gift box, is made of matt black silicone and also allows an inclined positioning.

Spot on! – base ring with LED-light

This version of the base ring for the "Eddy" (item 4883) and "Star" (item 4947) decanters offers the chance to stage served wine through light.

The rechargeable Zieher LED-light (item 8150) fits exactly into the cavity at the bottom part of the ring and thus puts the served wine inside the decanter into the limelight in a fascinating way. In the beginning, the illumination effect in the filled decanter can be very unobtrusive when serving strongly pigmented red wine. But at a decreasing level, the play of light and colours becomes more and more intense in an exciting way.

These accessories are also suitable to illuminate glass bowls and - platters. In combination with the ring, the LED-light and remote control still maintain their known options, such as adjustable brightness, 7 different colours and various colour-changing functions. Detailed information about the Zieher rechargeable LED-light can be found on page 47.

All components (ring, light, remote control and charger) are available either as single parts or as a set in a gift box.

"Pebble"

"Pebble" is made of high-grade, lead free crystal glass. The unfilled decanter inspires by the brilliance of the glass alone and the resulting light reflections.

These products are hand-blown with perfect craftsmanship. The sensitivity and longstanding experience of the glass blowers become apparent in particular in the creation of the bottom, which is extensively dimensioned and separated into three convex segments.

While filling the decanter the wine flows, due to the shaping of the neck, along the complete inside area, which maximises the surface of the wine and thus contributes to the aeration. The three swales at the bottom serve to further swirl the poured wine, which results in a gentle but nevertheless very effective aeration. This effect can be intensified by warily swinging the filled decanter.

The diagonal cut of the neck and the accurate polishing of the raw edges minimise the formation of drops while pouring out.

Care instructions decanter:

Most of these carafes have microscopically seen a rough surface, which leftovers of the wine might adhere to and cause an unattractive appearance of the decanters. Our decanters have the advantage of being made of particularly high-quality laboratory glass, which is extremely smooth and repellent. In case it actually happens, these traces can easily be removed by using a mixture of citric acid and water. After a 2 hours residence time, the problem should be solved. The optionally available drying racks made of stainless steel, facilitates the drying of the decanters after rinsing.

"DryPod"

Creating a useful tool with a high demand on aesthetics – this was the idea during the development of "DryPod". The solid rack made of brushed stainless steel, PVD refined in either black or brass coloured, forms the basis for this shapely product. An accurately fitting drip tray, made of translucent resin, is placed inside the rack and harmonises with its anthracite colouration with both variants.

Primarily "DryPod" is a drying rack for decanters. The geometry was chosen in a way that all Zieher decanters can be placed safely, besides the big variations of "Eddy", "Star", "Doppio" a.s.o., it can also take hold of the smaller versions of some types as well as many other decanters in classical format. The drip tray securely collects dripping water and can be easily removed for cleaning.

Even after drying, all decanters are well stored in "DryPod". No matter if in a showcase or on the shelf, the decanter is stylishly presented by the precious display. Here, the downward-pointing opening helps prevent dirt from getting in easily.

Besides its actual determination, "DryPod" is temping by its versatility. As an etagere on the laid table or in the hotel room, the item can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find a selection of fitting combinations as well as further inspirations on pages 267 and 295.

dry rack/display "DryPod" with drip tray

"Mikado" – cool staging!

The bottle cooler "Mikado" is made of solid stainless steel and high gloss polished. Due to its weight and the generously dimensioned floor area, the solid frame has the required stability to offer the matching cooler made of hand-blown glass a secure hold.

Additional silicone rings on the upper side of the rods treat the glass body with care and avoid disturbing noise.

A very special highlight creates the optionally available waterproofed LED-light, which can be placed right inside the cooler. Multiple colours and functions can be adjusted by a remote control, an optionally available supporting ring keeps the light in position. All information about the LED-light can be found on page 47.

The glass insert of the "Mikado" bottle cooler can also be used as cloche. The reinforced quality, which is indispensable for the use as a cooler, implicates besides the slightly higher weight also an obviously improved stability. The integrated ball grip at the top provides an easy handling when used as a cloche (page 186).

Design: Itamar Harari

THE BAR COLLECTION

For drinks with character

THE BAR COLLECTION by Zieher enriches the bar scene with new characters which are predestined for independent creations beyond the cocktail mainstream. Each jar playfully and humorously picks up on a different theme and thus exudes a good portion of humor in its own way.

Made of particularly break-proof and temperature-resistant borosilicate glass, all glasses not only offer an extravagant outer shell, but with a capacity of up to 500 ml, also provide plenty of space for extra-ordinary experiments and countless recipes.

Despite their differences, all glasses are easy to combine and create possibilities that go far beyond serving a drink. Besides the taste, a haptic and visual experience is generated as well, which fulfils the basis of modern cocktail staging.

"The Knobbed" plays with its content, because the attached knobs imitate the bubbles of carbonic acid in an amusing way. Interesting contradictions to the actual content can be taken to extremes here.

→ "Eddy - Dash!" | p. 220

cocktail glass "The Knobbed"
borosilicate glass, transparent, handblown

item	Ø / height in cm	content in l	PU
4972	8.5/12	0.5	6 pcs

"The Pill" allows for many associations: The risks and side effects of the drinks served in these glasses range from the feeling of well-being after consuming various healthy drinks to the intoxicating effects of high-proof cocktail creations.

"The Vikings" are vaguely reminiscent of the headgear of ancient Vikings. They offer a large, clear chalice on satined feet, in which strong cocktails can be staged transparently. The variant with two feet surprises with its tilted position, while the three-foot variant appears stable and yet almost floating.

4976	8.5/12	0.43	6 pcs

The dash bottle "Eddy - Dash!" for dosing bitter or sour ingredients is, alongside the glasses, an important part of THE BAR COLLECTION. A fitting squirt dispenser comes with every bottle. This vessel is formally based on the well-known "Eddy" wine decanters from Zieher and, in addition to being used as a dash bottle, also enables further uses. Thus for example, a "cocktail from the bottle" can be served in these vessels, the inwardly directed swirling bodies allow the ingredients to be mixed right before the drink is enjoyed.

The smallest "Eddy" can also be used in the restaurant. For this purpose, Zieher offers suitable cruets as well as matching bottle pourers with hygienic sealing caps, which allow the "Eddy - Dash!" to be used as an oil or vinegar bottle.

“Reef” – showpieces of table culture

Large numbers of single parts are casted from premium pewter and subsequently assembled in high-grade craftsmanship to give shape to these items. The inimitable pieces of art created that way are unique items, which inspire by the polished surface of the organic structures and the rounded tails of the meshwork.

The small presentation baskets can be equipped with miniatures made of clear or coloured glass and give your food a stunning stage.

Borosilicate glass in its most beautiful shape

The primary design element of the series "Cuspis" is a glass ball studded with fine spikes. The cloches with fitting porcelain plateau plates/bowls are available in three sizes, the inspiration for their shaping was derived from the nut of the oak tree. The unglazed outside of the porcelain bowls is reminiscent of acorn caps.

The bowls can be used on both sides. When used as a plateau plate, the dish moves closer to the guest, while the filigree glass cloche protects the presented delicacies and puts them in the limelight at the same time. Used as a bowl, it offers space for gravies, sauces and more.

Design: Michael Schwarzmüller

Handblown, double-walled glasses made of borosilicate glass combine spectacular optics and extraordinary technical features.

The vacuum between the two glasses prevents the formation of condensate on the outside of the glass when the ambient temperature is warm and the drinks are cold. The isolation effect keeps cold and warm liquids cold or warm for a longer time. Borosilicate glass by Zieher stands out due to its hardness and high temperature resistance.

Please note:

Since all glasses of this series are handblown,deviations from the declared content may occur.

The coasters made of food-safe silicone are shapely accessories with a highly practical benefit. Clattering and wildly sliding miniatures on plates and trays are therefore a thing of the past.

The skid-proof discs with their delicately structured, matt surface facilitate the service work and ensure undisturbed enjoyment for the guest. The coasters are available in two colours; the white ones can be integrated discreetly, whereas the black ones can be used deliberately as contrasting, decorative elements.

A ring and a test tube holder made of black silicone provide a stable base for numerous small bowls and miniatures.

Like the shell hides the pearl, the porcelain bowl "Cave" conceals precious delicacies within its hard shell. At first sight, this porcelain piece only partly reveals its interior.

"Cave" consists of intricately worked hard porcelain and captures by its soft shaping and the velvety haptics of the unglazed outside. "Cave" is predestined for use at cocktail and hors d'oeuvres receptions or at the flying buffet. The miniature bowl can be carried comfortably and perfectly fits in the palm of the hand.

Stay cool!

Serving chilled food is primarily a technical challenge with certain dishes or intermediate courses. With the two-coloured cooling pads, this necessity can be met in a sophisticated way, also in terms of visual appearance. The wrapper made of black respectively white nylon fabric appears classy and unobtrusive. The pads are filled with gel which remains shapeable, even when frozen and thus allows an adjustment to the tableware used.

Slate is a unique and exceptional natural product. The surfaces of our slate platters have the typical slaty cleavages, therefore every piece is unique. Small deviations in structure, thickness and weight of the plates cannot be avoided because of the nature of the product. There may be single inclusions of other minerals and fossils. These extraordinary features give slate its precious and vivid appearance. Please note: Specific groceries, especially those that contain fruit acid (citric acid), may damage the surface in case of longer contact. Therefore we recommend avoiding direct contact with edibles.

These slate plates are unsealed. In order to give them an evenly dark grey colour and to freshen up the surface, we recommend rubbing the plates with some vegetable oil from time to time.

"Bento Box" – flexible mobility

Please note:

Items made of melamine are not to be used for cooking in microwave and combi steam oven!

Serving guests at the pool, beach or on the terrace is often associated with longer walking distances for service staff. The "Bento Box" from Zieher has been designed especially for these requirements – all components are stackable. This way, a space-saving storage and a comfortable, non-slip transport, even with several dishes at the same time, is guaranteed.

The versatility of the individual components also becomes evident in the cover. This lid can also be used as a tray, whose lightly textured inside has an anti-slip effect.

All information about the "Bento Box" can be found on page 133.

Breakfast in bed – inroom dining!

The room service tray as well as the bed tray stand out due to the precious walnut wood, which is incorporated into these products with high-quality craftsmanship. The recessed longside enables comfortable dining directly off the tray.

The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable sitting beneath the tray is guaranteed. So start off the day with a boundlessly relaxing breakfast in bed!

Please note:

All items made of walnut are not dishwasher-safe! Do not immerse in water!

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 280. The trays are equipped with integrated grip holes and are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

"Solid" – Enjoyment in a pentagon

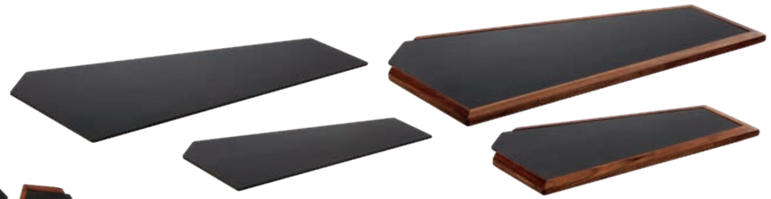

Enjoyment in a pentagon

These classy service platters take effect by their exceptional shape and the stylish combination of oiled walnut wood and slate-grey ceramics.

Available in two different sizes for just one or more persons, single courses right up to mixed arrangements - so-called "sharing plates" - can be staged appealingly. For bigger buffet setups, several plates can be arranged space-saving and thus provide an extraordinary structuring of the buffet spaces. The pentagonal design allows numerous arrangements and enables beautiful presentation areas on the buffet.

The projecting handle permits an easy removal of the insert and thus allows an uncomplicated cleaning of the thin but very robust ceramic.

Serving platters made of walnut

"Connect!"

Please note the care instructions: not dishwasher-safe, do not immerse in water!

"Connect!" convinces as an extremely versatile tool such as a snack board, serving or cutting board, or as a presentation platter created by the combination of several elements.

The integrated tenon in the shape of a dovetail serves as a decorative handle with an artisanal touch. Suitable cutouts at the underside allow an easy combination of different elements. Skid-proof positioning feet ensure a firm stand, the slanted outer edges facilitate handling. The solid walnut wood is sealed with high-quality oils, which makes it easy to freshen up the surface from traces of everyday wear and tear.

Delicacies in delicate settings!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. Apart from an insert with round cavities for nine truffles/chocolates and a flat plate that can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc. The lid made of tinted glass, which is also available, sets the scene for what is being presented.

Finest creations of the pâtisserie have to be presented in a worthy frame!

Marco D'Andrea:

"The round deepenings in this presenting box are specifically matched, that even if the box is inclined, the truffles will not roll out. Chocolates/truffles with a diameter ranging from 22 to 28 mm fit easily into the deepenings. The dark wood of the walnut tree gives the box a fine and modern look.

The tinted glass reveals the secrets hidden inside the box only once it is given a very close look. The glass can be inserted vertically into the back part of the box or can be slid in under the box. Once closed, anything inside the box can be stored hygienically. The narrow, sidelong compartment in each box can be used individually. Besides placing a tong or other serving cutlery, it can also be used for the presentation of more chocolates or petit fours."

The idea and design for these presentation boxes "Solid" for truffles and filled chocolates are from Marco D'Andrea, "Junger Wilder 2012" and proclaimed "Pâtissier of the year 2014" during the "Leaders of the Year Award" convention (powered by ROLLING PIN). His first cookbook "Modern TeaTime" was published by Südwest Verlag in autumn 2021.

Further awards:

"Pâtissier of the year 2019" - Rolling Pin

"Pâtissier of the year 2020" - Gault Millau

"Pâtisserie team of the year 2020" - Schlemmer Atlas

The bread baskets made of solid walnut wood surprise with their exceptional design and their highly sophisticated handicraft. Designing these bowls, the Milanese designer Itamar Harari did not only think of serving bread, but also of the typical Italian Grissini. Recesses at both ends are especially suitable for those. A selection of fruit in the hotel room also receives much attention if stylishly presented in these extraordinary bowls made of beautiful wood.

"Fakir"

Massive brass, produced in traditional sand casting, creates unique sculptural items, which enthuse especially by their contrast between matt golden surfaces and dark patination.

An interesting add-on to the "Fakir" bowls are round glass platters of the Zieher product range. These can be laid on easily and thus generate the option to use the impressive objects on both sides.

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

"Orbis" NEW

The service trays "Orbis" are made of solid brass and furnished with a matt surface structure. The modern appearance of these products results from the matt-golden tint and the reduced creation. The trays are available in two sizes and predestined for the use in a bar, on the buffet or the service in a restaurant.

All trays are food-safe sealed, nevertheless the direct contact with food should be avoided. Primarily, the varnishing prevents from too rapid formation of patina, which is inevitable for brass. In the long term, this patina is actually desired as it is exactly this matured colour, occurring in the course of time and use, which exudes a very special charm. By and by, these trays become more and more beautiful, each piece evolves into a unique copy.

patina

Please note:

Brass items are only suitable for cold/dry food. Do not clean in the dishwasher.

Tempting variety on the buffet

For the presentation of filigree delicacies in the smallest of spaces, the new "Table-Trees" from Zieher offer numerous possibilities for a stylish staging.

A selection of fruit, chocolates or patisserie can be presented on the six organically shaped petals of the "Table-Tree" Flower. The "Table-Tree" Pin offers the possibility of presenting finger food or small snacks on six skewers at different heights. Each delicacy is held securely by an artfully shaped spiral and prevents from slipping.

The 30 cm high "Table-Trees" are made entirely of stainless steel by hand and polished to a high gloss. The solid base forms the basis of these filigree products and ensures a secure stand.

A tree to dream of!

On 13 resp. 25 levels, these trees offer the possibility to present and showcase finger food, petit-fours and other delicacies.

The "Flex-Tree" enthuses by its versatility! It can be equipped with various miniatures. You can find a small selection and all information about these etageres on page 103.

The leaves shape of the "Flower-Tree" is based on the already existing plateau plates and "Flower-Tower" etageres (page 105 and 106). Especially on the buffet, this opens up the option to arrange installations diversified but yet harmonious and variable.

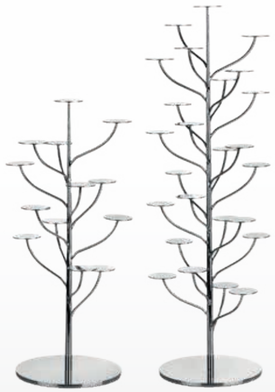

ⓘ Anti-slip-pads for „Flex-Tree"

"Flower Tower"

Floral shapes in a steely gloss

Two etageres as well as plateau plates in different heights (page 106) allow a visually harmonious yet flexible and diversified presentation of appetizers, finger-foods or desserts. The ice cream/sorbet cups and petit-fours stands in various sizes make a nice complement and individually stages petit fours and more.

The formal base for all products is a slightly arched and kidney-shaped miniature plate. On three levels, the buffet etagere combines seven small plates each to a presentation platform of floral appearance and offers space to present up to 21 delicacies in a compact and stylish way.

The table etagere consists of one level only and is therefore perfectly suitable for the restaurant service to present intermediate courses, antipasti or dessert variations. This product is the ideal choice, even as a stylish storage dish for different types of fruit or accessories of daily use.

Etagere "DressCoat"

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Black silicone rings keep inserted porcelain in position and prevent annoying noises.

A very special aesthetic setup can be arranged by using a combination of several etageres along with the biggest plates of the "DressCoat" series. In connection with the almost invisible tier stand, the plateau plates appear amazingly airy and playful by their floating look-and-feel. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere are available on page 100.

"Falcon" – really detached!

This etagere, inspired by the elegance of a falcon, is giving wings to the creativity at the buffet and on the table. A single one can bear up to three plates on its wings or, when used as a duo, also fitting buffet platters or a combination of both can be installed. Anti-slip supports can be plugged on if needed and thus provide a safe positioning of the platters. As a high-tea stand, the etagere carries plain white or matt-black coup plates, which fit exactly into the slots of the wings.

The mirror polished, solid stainless steel (3 mm) punctuates the precious impression of the dynamic shape, incorporated handrails facilitate the service.

Primarily, "DryPod" is a dry rack for decanters.

The solid structure made of brushed stainless steel, refined in either black or brass colour, forms the basis for this shapely product.

Also besides its actual determination, "DryPod" is temping by its versatility. As an etagere on the laid table or in the hotel room, the rack can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find all information about "DryPod" on page 213.

Elegantly served and presented in style – classic plate etageres, newly inspired!

Shapely and individual stands by Zieher are suitable for numerous applications. The classic plate etageres are available with three levels and in two sizes. The classic mini format etageres effectively present petit fours, chocolates or other delicacies (page 268). The larger version is ideal for scones and jam during Five o'Clock Tea, but also a choice of cold cuts, cheese or fruit can be staged elaborately on the set table.

Candle holders Wind lights

"Reef"

Please note:

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

The wind light fascinates with the reflections of light and the dancing shadows. A removable cylinder made of heat resistant glass protects the flame from wind and thus allows the usage in the garden and on the terrace.

Since medieval times, pewter has been used for table top items and has been the most important raw material for a very long time. The popularity of pewter first started decreasing in the 18th and 19th century by the progressing development of glass and the increasing popularity of porcelain. Since then, the usage of pewter has focused mainly to decorative elements. Up-to-date pewter is 100 % lead-free and therefore uncritical when used for food.

"Somnia"

With candlelight, this extraordinary lighting object creates fascinating effects and provides for a cosy and comfortable ambience.

The filigree rods are made of brass and manufactured piece by piece in traditional sand casting. Afterwards they are soldered onto a solid baseplate with an elevated rim. This baseplate avoids the leakage of wax and protects the table surface from the heat.

Additionally, it forms the frame for a removable cylinder made of heat resistant glass, which by way of its satined surface, intensifies the mood of the light and protects the flame from wind at the same time.

Please note:

For tealights or candles up to a height of 10 cm and a diameter of 7 cm.

"Solid"

This service tray with integrated separations is perfectly suitable for the service of small dishes at the pool, the beach or in the room. The major compartment has been designed for plates with a max. diameter of up to 29 cm, the lateral separation offers sufficient space for cutlery and napkin. Also insertion bowls with a max. width of 7.5 cm will find space and thus can be used for dips, salad and other side dishes. You will find a selection of suitable inserts on page 280.

The trays are equipped with integrated grip holes and are stackable. Finger joints at the corners, non-skid rubber feet and a food-safe sealing of the solid walnut wood fulfill the high-quality standards, which are valid for all items of the "Solid" range.

Please note:

The trays 4707 and 4769 are not suitable for the tray stand item 4748 (p. 290).

→ More items of the series "Solid" for the buffet | p. 114 to 130

The tray stand of the series "Solid" convinces in every aspect!

The shapely stand always provides the appropriate possibility to set up the "Solid" room service tray (item 4735) in the hotel room, but also in the restaurant. Combined with Zieher buffet platters in the format 2/1 GN, it easily and flexibly creates new spaces at a comfortable height. Thus, it is predestined for the use at the buffet and during coffee breaks in the congress and convention business. The massive frame made of walnut wood harmonises perfectly with other buffet items of the series (from page 114) and can be combined with them very well. Rubber feet on the top prevent the shifting of platters and trays, felt gliders at the base protect the parquet flooring and ensure safe standing.

The room service tray as well as the "Solid" bed tray stand out due to the recessed longside, which enables comfortable dining directly off the tray. The retractable feet of the bed tray have been constructed in a very stable way and are securely kept in position by integrated magnets when folded in. The height of the erected tray has been chosen in a way that, even with soft mattresses, a comfortable seating beneath the tray is guaranteed.

The rubber feet at the base are set back from the rim to enable the transport on a tray trolley in 1/1 GN-format (60 cm x 40 cm).

Delicacies in delicate setting!

Due to the comprehensive range of accessories, the "Solid" presentation box offers multiple application possibilities. The box, regularly fitted with a wooden sliding lid, can be equipped with several optionally available inserts made of top-quality solid surface material. The also available lid made of brown-tinted glass puts the presented goods in the limelight.

Apart from an insert with round cavities for nine truffles/chocolates and a flat plate which can be used for layered chocolates, various little somethings or amuse bouches, there is also an insert available for commercial coffee capsules. The insert for cigars can hold up to four cigars and a separate compartment aside offers additional space for matches, cigar cutters, etc.

The glass lid made of grey-tinted glass, which is also available, impressively sets the scene for what is being presented.

Etagere "DressCoat"

The etagere with three tiers, made of hammered and highly polished stainless steel, forms an extravagant basis for many sorts of plates and platters. Even in the hotel room, the etageres can be positioned in an eye-catching way. Equipped with "DressCoat" or other tableware, small snacks, a selection of fruit or a sweet welcoming treat can be staged in an appealing way. All information about this etagere are available on page 100.

ⓘ We recommend the use of large plates on the lower level only.

"DryPod" NEW

Primarily, "DryPod" is a dry rack for decanters.

The solid structure made of brushed stainless steel, refined in either black or brass colour, forms the basis for this shapely product.

Also besides its actual determination, "DryPod" is temping by its versatility. As an etagere on the laid table or in the hotel room, the rack can be equipped with numerous other Zieher articles and thus presents food and delicacies in an impressive way.

Please find all information about "DryPod" on page 213.

ZIEHER
somewhat different!

The buffet systems by Zieher were developed to put the most exquisite products into the limelight in a very effective and diversified way.

Photo: www.juwelier-hohenberger.de

The section "displays" shows that they are not limited to the use with food: high-class jewellery and watches, as well as other kinds of luxury goods find a representative stage with the Zieher display systems.

The discreet and classy design does not push for attention, but offers a unique and distinctive means of presentation that puts the product at the centre of attention.

Making precious materials more precious – whether it is glass, china ...

"platin"

"gold"

"bronze"

Please note:

Products are dishwasher-resistant. Please take note of the instructions given by dishwasher producers and detergents to avoid damage. **Since the coatings are made of precious metals, the use in microwaves is not recommended under any circumstances.**

Large-scale coatings on glass and china in precious colours enrich every dining table and create luxurious accents!

In order to achieve this decorative style, available in gold, platinum and bronze, the precious metals are burnt onto the varnish at more than 880 °C and as a result, the coating is dishwasher-safe. Cloches made of glass can now be used for serving warm dishes as well and condensing water remains invisible to a great part.

By using resistant precious alloys, we obtain a connection to the varnish, which is strong enough for the products to become dishwasher-safe. Test series by the "Institut für Werkstoffe Heraeus Precious Metals GmbH & Co. KG" have proven the dishwasher resistance of the decor. Partially, the possibilities of coating are dependent on the form of the product. Requests are being tested in each case according to their feasibility.

The bronze colour is a special case since it presents itself in numerous interesting shades of colour. Depending on the shape of the product, especially when looking at immersions, the colours can vary from gold-bronze shades to blue-violet ones, which blend into each other and create unique effects. Specific patterns/orders are usually executed quickly.

Please do not hesitate to send us your special request.

Satin-coated logos applied before the refinement still remain visible!

colour gradient "bronze"

Individuality in glass ...

For designs on double-walled glasses, it is possible to apply the print on the outside of the inner glass. In this way, the print is fully protected against abrasion and wear.

... melamine ...

... china ...

... and stainless steel!

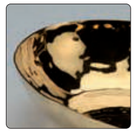

... or stainless steel – nearly everything is possible!

stainless steel, polished

golden

copper

black

Stainless steel refinement through PVD-technology

Highly polished and matt stainless steel can be refined by using PVD-technology to obtain golden, copper and black colouring.

PVD stands for **P**hysical **V**apour **D**eposition and describes a method to coat products with different materials by way of sputtering in a vacuum. Contrary to the galvanic refinement, for example with copper, items refined by using PVD-technology will neither oxidise nor tarnish at the surface. Thus any copper refinement can be done without applying specific anti-tarnish protection. The technical feasibility of PVD-refinement depends on size and shape of the items and has to be checked individually.

Price, minimum order quantity and delivery time upon request!

Advantages of the PVD-coating:

- Food-safe
- Dishwasher-safe
- Better strenght and adherence compared to galvanic refinement
- Brilliant colouring, colourfast and resistant against UV radiation

We will be delighted to advise you!

Powder-coating:

All items made of stainless steel can be powder-coated in all current RAL colours upon request. In contrast to the PVD refining, this coating is not dishwasher-safe.

Our partners, fans and friends, among them many top chefs and sommeliers from all over the world, are using Zieher products to stage drinks and dishes and to present them on social media.

36 years of ZIEHER

A story of success from 1986 to 2022

Starting years as trading company

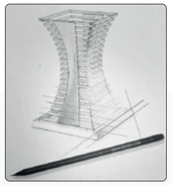

1986 - 1996

In 1986 Manfred Zieher and his wife Christa founded the company. Traditional gastronomic items were offered under the name MAC and soon also presented in an own catalogue and on shows. In 1994 the company was finally named Zieher.

Establishment as gastronomic partner

1997 - 2005

In the second decade, Zieher became established as partner of gastronomy specialised shops. Since 1996 the company is located in Himmelkron, the prominent brand logo was registered in 2004 as a word and figurative mark.

Itamar Harari

Extravaganz designed by Zieher

Since 2006

The first Zieher designed products were released in 2006. Individual creations in the luxury segment emerged from the close cooperation with renowned chefs and the inspiration by their artistry. Besides the cooperation with well-known Designers such as Itamar Harari for instance, many products bear the signature of Oliver Zieher. In 2009, "Skyline" – a benchmark for extremely flexible buffet systems – has been developed.

Wine and more

Since 2015

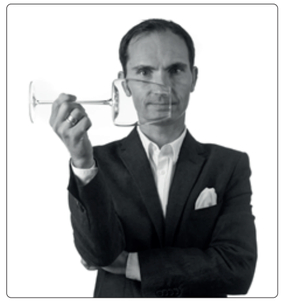

The cornerstone for a collection for ambitious wine lovers was laid in 2015 with the VISION series. These unique wine glasses have been developed together with sommelier Silvio Nitzsche from Wein | Kultur | Bar Dresden. The range has been extended in 2017 with "Eddy", "Star" and other extraordinary decanters and has been made accessible through specialised retailers also for end users.

Focusing and generational change

Since 2020

Zieher is focusing on their skills and positioning themselves more and more as an extravagant design manufacturer for luxury food presentation and wine glasses. The professional range has been tightened and the range for end users has been reduced to the FOR WINE LOVERS range. In 2021 the generational change has been carried out and the company has been handed over to the children Dominik Zieher, Jennifer Hübsch and Oliver Zieher (ltr).

Silvio Nitzsche

Zieher today

In 2023 Zieher is present in 5 * Hotels and top restaurants in more than 90 countries and appreciates the long lasting, often amicable relationship with clients, partners and suppliers.

As partners from the very beginning, a very special thanks to Thomas Dötzer from Dötzer Restauration Bayreuth for his extraordinary culinary expertise and to Photographer Gerd Preiss for the artful composition and the exclusive styling of the Zieher image library.
